## FATHER OF 5 KILLS WIFE AND SELF AT BOYLE AND LINDELL

William F. Admire, Plasterer, Attacks Woman on Street, Strikes Her and Fires Two Shots.

## HEN PUTS BULLET THROUGH OWN HEAD

Everything Carefully Planned—Slayer Leaves Detailed Directions for Care of Their Children.

After making careful disposition of his possessions and leaving directions for the care of his five children, William F. Admire, intermittently-employed plasterer, shot and fatally wounded his estranged wife early today at Boyle avenue and Lindell boulevard and then killed himself.

The wife, Mrs. Nora L. Admire, pantry employee at the Castilla restaurant, 111a Washington avenue, died at City Hospital at 7 a. m. less than an hour after she had been shot. Admire, who was 52 years old, 20 years his wife's senior, died almost immediately from a bullet wound in the temple.

"I hate to do this, but I always told her I would," Admire stated in one of several notes found after the killing. He had complained, police learned, that his wife left him June 30 because she was enamored of someone else.

Spent Night in Preparation.

The shooting apparently followed a night of preparation. Admire left his rooming house, 4065 McPherson avenue, at 5:30 this morning, placed one long letter on the front porch of Edward Oatman, 433 Lindell boulevard, who had been teaching violin to one of Admire's young daughters, and then waited for Mrs. Admire on Boyle avenue just north of Lindell boulevard. In a paper sack he had an old and rusty revolver which he had purchased recently.

At 6 o'clock, Mrs. Admire walked north in Boyle avenue from her rooming house at 4256 West Pine boulevard to Maryland avenue, where she was accustomed to board a street car. They met at the alley north of Lindell. Passers-by heard their voices raised in quarrel and saw Admire strike his wife. She fell to the sidewalk, witnesses told police, and Admire, bending over her, shouted, "Take that!"

He shot her, then shouted, "And take that, too," whereupon he fired a second bullet into her chest. He then thrust the revolver against his temple, pulled the trigger once and all died beside her.

A policeman who took Mrs. Admire to City Hospital asked her, "Who shot you?" and she told him, "My husband." The next question was, "Why?" "Because I left him," Mrs. Admire gasped. She lapsed into unconsciousness and made no further statement.

Note in Man's Pocket.

In Admire's hip pocket police found a sealed envelope marked "William F. Admire and my dear wife, Nora L. Admire, 4065 McPherson avenue." A letter inside was addressed "To whom it may concern" and started with a statement of the couple's identity.

"Mr. Edward Oatman will care for everything," it continued. "He doesn't know a thing about our domestic affairs. Just a friend and I want him to care for us and look after our babies."

"To the so-called Christian people of the dear U. S. A. This is a result of your good prohibition and your damned English King, President Hoover, who said a man should keep a family on \$14 a week and save money."

The note found on Oatman's front porch attributed responsibility for the killing and suicide to the persons who, Admire stated, had advised his wife to leave him.

Admire Oatman to collect all insurance due as a result of the death, to pay current bills and use the remainder to assist in educating the children, 14 years old, Fred Jr., 12; Eleanor, 12; Maxine, 9, and Norma, 4. The note directed that the children be placed in the Masonic Home.

The daughters are visiting their grandmother in Waverly, Kan. Elton had remained with his father and the other boy had been living with his mother since the separation.

Mrs. Sylvia Mundy, proprietor of the rooming house at 4246 West Pine boulevard, said Admire came there last Friday night and his wife declined to see him. He returned the next night, Mrs. Mundy said, and Mrs. Admire talked to him until 11 p. m. After that, he continued, Admire called on his wife every night. Last night he brought her a radio and sat in the grass talking to her until midnight, when he left, promising to return tonight with an electric fan.

## BEAR KILLS KEEPER IN CLEVELAND ZOO

Animal Shot After Attacking Man Who Tried to Force It into Pit.

By the Associated Press.

CLEVELAND, July 8.—Fifteen minutes after he lost his job as an animal keeper, Thomas Earl, 56 years old, walked into a pen at the Brookside Zoo, locked the gate behind him and was clawed to death today by a 900-pound Russian brown bear.

Earl was trying to force the bear, named Sunshine because of an ordinarily docile disposition, into a pit when the animal in a sudden rage turned on him.

The beast rose on his haunches, grabbed Earl by the shoulders with a paw and began strangling and clawing him at the same time, said Edward Hagan, tender of the lions and tigers, who was the only witness.

"Earl screamed for help," Hogan said. "I struck at the bear with an iron bar I was carrying, but couldn't drive him off. I ran for assistance to St. Louisans that today, as you see here, your neighbors, so to speak, are in actual want and that their number and mood grows constantly menacing."

The meeting was called, he said, "that the situation may be fully known, that jointly we may face the facts, and that we may muster the leadership of St. Louis in correcting, if humanly possible, this threat to our city and citizens."

Miller then turned the meeting over to Morton Mac, vice-chairman of the Citizens' Committee, who said "the rising tide of want" would be deflected by William L. Igoe, president of St. Vincent de Paul Society, and E. G. Steiger, director of the Community Fund.

In May, 1929, Igoe said, relief agencies now affiliated with Citizens' Committee were assisting 3739 families. A year later the number was 4426, in 1931 it was 10,458, and last May it was 25,769.

"We thought when the Crisis Campaign succeeded," Igoe said, "that it would take care of the problem for the rest of this year. But each month we found our expenses were greater than we had estimated."

As a result, Igoe said, the committee came to the conclusion it would need nearly \$1,500,000 more to continue helping all until Jan. 1, and notified Mayor Miller that it was unable to cope with the situation.

Because funds were lacking, he said, the relief agencies have accepted no new applications since June 15, have abandoned 8000 families.

93,000 Fewer Jobless in Germany.

BERLIN, July 8.—Unemployment in Germany decreased during the second half of June by 25,000 to a total of 5,176,000.

## SENATE TO VOTE ON DRY REPEAL AMENDMENT

Unanimous Consent Given for Expression on State Liquor Control—Barah Seeks to Block Wet Plan.

### MOVE IN BOTH HOUSES FOR BEER

77 Republican Representatives Sign Petition to Garner; Speaker's Answer Is "Ready."

By the Associated Press.

WASHINGTON, July 8.—Without the formality of a record vote, the Senate today unanimously consented to place on its calendar for future consideration a constitutional amendment to substitute state liquor control for the eighteenth amendment.

Senator Barbour (Rep.), New Jersey, author of the proposal, said he would press for its consideration before Congress adjourns. The drys were confident, however, of a good majority against it.

The action came after lengthy debate on Barbour's motion to discharge the Judiciary Committee from further consideration of his proposal and to bring it before the Senate itself.

Meanwhile, moves were under way in both the Senate and House to obtain a vote this session on legislation to legalize beer.

Bernard F. Dickmann, president of the Real Estate Exchange, spoke against a relief bond issue and said he would favor it only as a last resort. Dickmann has opposed the bill increasing the real estate agents' tax which is among the pending special tax bills for relief pending in the Board of Aldermen.

He suggested instead of a bond issue a 100 per cent increase on the taxes paid for doing business and a tax of 1 cent on the selling price of each newspaper. The drys yield about \$700 a day for relief.

Dickmann wanted the meeting to pass on his proposal, but they were referred to the subcommittee to be appointed by Mayor Miller. The Mayor said he would make Dickmann a member of the subcommittee.

Opening the meeting, Mayor Miller termed it "official in the fullest sense of citizen responsibility." He had summoned those present, he said, "in virtue of my power to protect the health, welfare and social order of the city."

Communists Gather on Lawn.

As he was speaking, a group of Communists had gathered to gather on the lawn of the City Hall. These were on hand early to resist the relief demonstration planned for noon by Communist leaders.

"I hereby declare and recognize that an emergency exists," the Mayor said. "No more serious difficulty has ever confronted our city. One-eighth of our population calls for help and less and less help is being daily available. This is not a healthy condition for those refused aid or those living in a city denying such aid."

Senators Twit One Another.

Senator Reed asked Barbour whether he would accept amendments to his resolution to provide for ratification by state conventions to guard against return of the saloon and to protect states that want to remain dry. Barbour replied in the affirmative on each point.

Barbour opened up a general debate with Democrats and Republicans twitting each other on their own stands compared with those taken in their respective platforms.

Senator Bingham quoted Senator Ashurst (Dem.), Arizona, as saying recently that it would be a "ridiculous waste of effort" now to attempt to modify prohibition, since the "people want jobs, not jags."

Ashurst replied that "no amount of clamor" could induce him to violate the Constitution, but that, if Bingham could "prove not by his word, for it's not a chemist, that 4 per cent beer by weight volume is not intoxicating and will produce a revenue, I'm willing to give it for now."

Miller then turned the meeting over to Morton Mac, vice-chairman of the Citizens' Committee, who said "the rising tide of want" would be deflected by William L. Igoe, president of St. Vincent de Paul Society, and E. G. Steiger, director of the Community Fund.

In May, 1929, Igoe said, relief agencies now affiliated with Citizens' Committee were assisting 3739 families. A year later the number was 4426, in 1931 it was 10,458, and last May it was 25,769.

"We thought when the Crisis Campaign succeeded," Igoe said, "that it would take care of the problem for the rest of this year. But each month we found our expenses were greater than we had estimated."

As a result, Igoe said, the committee came to the conclusion it would need nearly \$1,500,000 more to continue helping all until Jan. 1, and notified Mayor Miller that it was unable to cope with the situation.

The constitutionality argument is based on the contention that the eighteenth amendment prohibits intoxicating beverages and that 2.2 per cent beer is in that class. If the point of order fails, prohibitionists propose to try to pigeon-hole the bill in the Judiciary Committee.

The petition, signed by 77 Republicans, urging immediate action on beer for revenue legislation and addressed to Speaker Garner, read:

"Dear Mr. Speaker:  
"We, the undersigned, hereby re-

## FINAL ACCORD IS OFFICIALLY ANNOUNCED AT LAUSANNE

Compact With France Will Be Initiated by the Powers Tomorrow When Three Premiers Will Address Session.

### BONDS TO BE ISSUED IN ABOUT 3 YEARS

Plan Is to Pay "When Reich's Credit Permits"—New Effort to Establish Relations on Basis of Reciprocal Confidence.

By the Associated Press.  
LAUSANNE, Switzerland, July 8.—France and Germany have reached complete agreement on the issues under discussion at the debts and reparations conference, it is officially announced this afternoon.

Under the agreement, Germany's final reparations payment is fixed at a nominal 3,000,000,000 gold marks (about \$750,000,000). Bonds for that amount will be issued at a price of 90 when Germany's credit permits.

The preamble to the agreement declares that reparations are finally ended and that a new effort in relations among nations is commenced on the basis of reciprocal confidence.

Hopes for "Fresh Achievements." "The Powers that have signed this treaty," says a preamble to the agreement, "do not claim that the accomplishment at Lausanne, which will completely put an end to reparations, can by itself assure that era of peace which all nations desire."

"But they do hope for an assurance that all these aims of such deep significance will be understood and appreciated by all pacific elements in Europe and in the world. They do hope that these accomplishments, so ardently attained, will be followed by fresh achievements."

The preamble is followed by five resolutions dealing with details of the agreement.

No Mention of War Guilt.

Publication of the text revealed that the "gentlemen's agreement" linking reparations with American debts is not in the document. This agreement has been mentioned several times during the course of the conference.

Neither is the war guilt clause of the treaty of Versailles mentioned specifically. This clause, saddling Germany with responsibility for bringing on the World War, is to the Germans one of the most irritating parts of the treaty.

The five resolutions which follow the preamble concern:

1. An agreement regarding reparations between Germany and the former allies.

2. Conditional measures extending a moratorium on inter-governmental debts. Only creditor nations need ratify this.

3. An agreement to assist Austria and the Danubian states which are in financial difficulties.

4. Creation of a committee to study the grain problem in the Danubian states which are embarrassed by a huge grain surplus.

5. Creation of the machinery for a world economic conference under the auspices of the League of Nations.

The peaceful wishes of the signatories, says the preamble, "will be more readily achieved if the nations will rally to this new effort in the cause of real peace, a peace which can be complete only if applied in both the economic and political spheres with the possibility of resort to arms rejected."

The final lump payment to be

## 4 HURT IN COLLISION; ONE AUTO HITS POST

Two Machines in Crash at Michigan and Holly Hills Avenues.

Four persons were injured when an automobile driven by Victor Seifert, 4805 Pennsylvania avenue, collided with a machine driven by Morris Bierman, a clerk, 4407 South Grand boulevard, at Michigan and Holly Hills avenues at 11:20 last night.

Mrs. Mary Seifert, wife of Victor, suffered lacerations of the head and body. Their daughter, Norma, 20 years old, suffered internal injuries. Lester Gilbur, 23, 1811 Kennett place, a passenger in Seifert's car, was cut and bruised. Bierman, whose machine careened against a street light standard, received scalp wounds.

A man, who has been unconscious at Christian Hospital with a skull injury since he was struck by an automobile driven by William James, 5407 St. Louis avenue, at Grand boulevard and St. Louis avenue last Monday, was identified by relatives yesterday. Theodore Petrich, 75, 4412 Blair avenue.

Fred Stump, 12, 2511 North Twenty-second street, suffered a fractured leg and head injuries when he was struck by an automobile while running after a ball near his home yesterday afternoon. August Gieske, 2101 East Linton avenue, the driver, told police that the boy ran into the path of the machine.

Jacob Cohen, 12, 1425 Semple avenue, suffered a fractured leg and a skull injury when he was

## Federal Repeal Alone Won't Bring Back Beer

Missouri Bone Dry Law Would Still Stand  
In Way, Even If 18th Amendment  
Were Wiped Out.

Repeal of the eighteenth amendment would not "bring back beer" in Missouri, so long as the state's bone-dry law remains on the statute books.

If Congress should submit a repeal proposal to the states, and three-fourths of them should ratify repeal, the eighteenth amendment would disappear from the Federal Constitution, but sections 441 to 452 inclusive of the Revised Statutes of Missouri would not be affected. Those sections, enacted in 1919 and 1921, and with the drastic search and seizure clauses added in 1923, will remain until both houses of the State Legislature have voted to repeal them, and the Governor has approved the repeal, or until the people repeal them through the initiative.

Attempts to repeal the state bone-dry law through the initiative failed in 1920 and 1926. No such movement is under way thus far in the present campaign year. The voters of Missouri will nominate Aug. 2, and will elect Nov. 8, the Governor, all members of the lower House of the Legislature, and one-half of the State Senate.

Chance to Block Repeal.

A majority of either house could block repeal of the state bone-dry law. If such repeal were passed, and were vetoed by the Governor, a two-thirds vote of both houses would be necessary to pass it over his veto. The lower House is dominated by the rural districts, as each of the state's 114 counties has at least one representative. The rural sections have a majority also in the State Senate.

Section 448, the opening section of the bone-dry law, makes it unlawful for any person, firm, association or corporation to manufacture, sell, possess, give away or transport intoxicating liquors within, import the same into or export them from the State of Missouri.

Section 449 defines "intoxicating

Search and Seizure Section.

Section 451-12, which takes not more than two pages of the statute book, gives authority and prescribes procedure for an unusually thorough system of search and seizure, and for the destruction of seized liquors and the sale of confiscated property.

Under a section enacted in 1923, the unlawful manufacture or sale of "hooch" or corn whisky is made a felony, punishable by two to five years' imprisonment. Removal of alcoholic beer from its permitted use in the making of near-beer is also a felony, punishable by a year in jail. For violation of other provisions, the penalties range from \$200 fine or 30 days in jail to penitentiary terms.

There have been few convictions in the St. Louis courts under the State bone-dry law. Juries have shown unwillingness to convict in these cases, and it has become the practice of the police to send cases to the Federal Court whenever possible. In other parts of the State, there have been many convictions and jail or penitentiary sentences under this law.

Sheriff Investigating Deaths  
of Two Boys Found in Mine

Think They May Have Been  
Vicims of Fool Play; Accident  
Virtually Dismissed.

Sheriff Fitzgerald of Madison

County is investigating the deaths

last Friday of John Hauranek and

Henry Polach, 13-year-old sons of

Glen Carbon miners, whose bodies

were found, the necks broken, in an

abandoned mine shaft near their homes.

Accident verdicts were returned by a Coroner's jury but the Sheriff thinks they may have met with foul play.

The reduction sought was 47½ cents a ton—from \$1.05 to 57½ cents. This rate is exclusive of a surcharge of 6 cents added by the Government several months ago. The inner group mines include those near Belleville and Edgemont.

Public demand for cheaper coal and the competition of dealers who haul coal into St. Louis by truck direct from the mines were principal factors in the request for a lower railroad rate. Truck competition has grown greatly in recent years. The coal men's committee, consisting of Nathan Suleiman, chairman; Jerome Jay Seifert, John Muckerman and Paul Conradi, pointed out the general decline of commodity prices. The coal trade may decide to appeal to the Interstate Commerce Commission.

JOHN H. BOOS FOUND SAFE  
Candidate for Congress Disappeared After Lapse of Memory.

By the Associated Press.

JEFFERSON CITY, July 8.—John H. Boos, Republican candidate for Congressman-at-large, who disappeared from his home here Wednesday after suffering a lapse of memory following a sunstroke, was found today near Loose Creek, 16 miles east of here. He presumably left here Wednesday for a business trip to Kansas City, but his motor car was found abandoned only a short distance from his home yesterday.

Boos, 42, was ill last night with a family at Loose Creek. This morning members of the family identified him from a picture appearing in a Jefferson City newspaper, and called Boos' relatives here. He was found by a son in a nearby woods. A physician who examined Boos said his condition was not serious. The lapse of memory, the physician said, was due to a sunstroke Boos suffered when on a recent business trip to St. Louis.

DEMONSTRATORS ARE FREED  
Chicago Judge Finds No Evidence  
of Riot.

By the Associated Press.

CHICAGO, July 8.—Chief Justice Harry M. Fisher in Criminal Court today interrupted police testimony about a Melrose Park unemployment demonstration in which eight civilians were shot down with police machine guns.

"I won't waste any more time on this," Judge Fisher ruled, "when a crowd is so orderly as to submit to search by one police officer and the trouble starts only when some of them refuse, I can see no riot. The defendants will be discharged."

Several hundred persons were making the demonstration May 6 when the police broke up the meeting. The wounded men have given notice of damage suits against the officers. "You have no right to search a person unless you have a warrant," the court reminded Lieutenant Paul Maggio. The police had charged \$5 of the demonstrators with rioting and inciting riot.

## MURDER INDICTMENT IN CASE CLOSED IN 1929 AS ACCIDENT

Madison County Prisoner Accused  
in Death of Man Found in  
Horseshoe Lake.

An indictment charging Charles Toda, a prisoner in Madison County jail, with murder in a case thought for three years to have been an accident, was made public yesterday in Circuit Court at Edwardsville.

The body of Tracy Schildknecht was found in Horseshoe Lake, May 25, 1929, and a Coroners' verdict of accidental drowning was returned. County authorities said, however, that they obtained additional evidence on which the grand jury indicted Toda late Wednesday.

A manslaughter indictment was returned against Gordon Kerr, Alton, whose automobile struck and fatally injured Joseph E. Clark, Alton, last Feb. 4 as Clark alighted from a street car in Alton.

Doctor in Plane Arrives Too Late.

MONTECILLO, N. Y., July 8.—While an airplane carrying a specialist, summoned in an effort to save her life, circled above Montecillo yesterday, Mrs. Charles Sherman, 21 years old, died in Montecillo Hospital. Her death was signaled to the plane and the specialist returned to New York without landing.

## NEW HEAD OF KENRICK

## KENRICK SEMINARY'S NEW PRESIDENT NAMED

The Very Rev. William P. Barr  
Is Successor to Father  
Souvay.

The Very Rev. William P. Barr, C. M., until recently head of the Missouri Province of the Vincentian Order, has been appointed president of Kenrick Seminary in Webster Groves.

He succeeds the Very Rev. Charles L. Souvay, C. M., who was transferred to Paris, France, headquarters of the Congregation of the Missions, as the Vincentians are properly known.

Father Barr completed a six-year term as Provincial about two months ago. Before that he was president of St. Thomas Seminary at Denver, Colo., and of the Vincentian Seminary at Perryville, Mo.

Father Souvay will leave for Paris Monday following a luncheon

## SIMPLE FUNERAL HELD FOR SMITH REYNOLDS

Wife at Service for Heir to Millions Who Ended His Life.

By the Associated Press.

WINSTON-SALEM, N. C., July 8.—Simple funeral services in sharp contrast to the elaborate surroundings, were held here today for Smith Reynolds, 20 years old, one of the heirs of the huge tobacco fortune, who was shot to death on his estate near here Wednesday.

Reynolds' bride of three months, the former Libby Holman, Broadway Revue favorite, who collapsed when told of her husband's death, came from seclusion for the first time since the shooting to attend the services. She sat with other members of the family.

Ab Walker, close friend of Reynolds, and first to reach him after the shooting, was one of the pallbearers.

Reynolds' estate, which has been closely guarded for the past two days, was thrown open today, and many curious poured in to join with relatives and friends in the simple rites.

Another large crowd was at the cemetery several miles away.

Meanwhile, authorities continued to investigate the circumstances surrounding the shooting in the hope of finding a motive which may have led the young man to take his life.

Dr. W. N. Dalton, County Coroner, today ordered an inquest into the death late today.

Dalton, who had said he would officially record the death of young Reynolds as a suicide, summoned a jury of six men today, took it to the Reynolds estate to view the body and then ordered the inquest.

He summoned as witnesses the several house guests of the couple as well as the members of a dinner party at the Reynolds home earlier on the night of the shooting.

Among the witnesses called were C. G. Hill, in whose honor the dinner party was held; Miss Blanche Yurka, New York actress, guest; Ab Walker, the first man to reach Reynolds after he was shot, and Roy Kramer of Flushing, N. Y., Reynolds' tutor.

Mrs. Reynolds wept silently throughout the services at the home. As the party left for the cemetery, she leaned heavily on the arm of her father as she walked to an automobile. After being assisted in, she seemed to collapse on Holman's shoulder.

Apparently she was badly shaken during the brief committal service at the grave. She was almost carried back to the automobile and driven to the Reynolds estate.

The services were in charge of Dr. D. Clay Lilly, pastor of the Presbyterian Church in Reynolda Village. He spoke briefly of young Reynolds' sturdy personality and daring as an aviator. Clad in deep black, Mrs. Reynolds began to weep when the clergymen referred to her husband's qualities and praised his daring in attempting to circle the globe before reaching his majority.

Sheriff Transon Scott said he could find no suicide motive and therefore would continue his investigation, although he said he had no evidence that it was not suicide. He called to his aid J. Earle McMichael, assistant solicitor of Forsyth County Superior Court, and Carlisle Higgins, District Solicitor, with whom he was to confer today.

Meanwhile, authorities awaited an opportunity to question the former Broadway revue star. First reports from members of the household said she was in a bedroom when the bullet was fired on an adjoining sleeping porch. Later it was said the two were lying across the sleeping porch bed when the shot was fired.

The shooting followed a small party at the Reynolds estate. Reports that it followed decision by Reynolds to leave home were not confirmed by Ab Walker, lifelong chum of the tobacco heir.

Walker, who was to have accompanied Reynolds to town about the time of the shooting, at 1 a.m., said he did not "understand it that way." He said Reynolds had said they would go to town, and was closing windows in the lower part of the house when he saw Reynolds go out on the sleeping porch. The shot followed a few moments later.

W. N. Reynolds, Smith's guardian, came here with Mr. and Mrs. Alfred Holman, Cincinnati, O., parents of the young widow, and with her brother and sister.

Reynolds' older brother, Richard J. Reynolds, has been advised of his brother's death by radio to his freighter yacht on the East African coast. Whether he would return home soon was not known. Stratton Conyer, attorney for Smith Reynolds, said the brother had answered two messages merely asking for more details.

### TWO HELD IN JOB SWINDLES

One Accused of Running Bogus Agency to Hire Cherry Pickers.

By the Associated Press.

DETROIT, July 8.—Two men are under arrest here on charges of fraud in connection with fake job schemes. Henry Hoffman pleaded not guilty to a charge of using the mails to defraud Walter Johnson, Rudolph Johnson and Stanley Leavitt, Finlay Park, Ill., and Nick Levandowski, Chicago, through a bogus agency to hire cherry pickers.

Charles W. Denker, West Bend, Wis., is charged by John Cameron, Detroit, with taking a \$25 bond to insure Cameron's attendance at a training school in Chicago. Denker, Cameron said, promised a job at the end of a two weeks' course. Denker denied receiving any money.

BOYD-RICHARDSON—OLIVE AT SIXTH

## PIANIST INTERPRETS MUSIC OF INDIANS

Harold Loring Also Tells of Difficulties During Study Among Tribes.

Songs and stories of the Sioux and Blackfeet were interpreted by Harold Loring for the Dramatic League last night at Hotel Statler, where often past the entrance clangs a maza-canqu-cankpagniyanpa-wasicun-wakan-yelo. The 16-syllable Sioux word for street car, he elucidated, literally means, "The magic wagon that runs on the iron road in the white man's town."

Loring, concert pianist and authority on Indian music and tradition, demonstrated a sign language which seemed vastly less complicated than the spoken. He played a number of his transcriptions of tribal music and related experiences of many years among the Indians under appointment of President Roosevelt to make a permanent record of their music.

**Afraid of Losing Voice.**  
There was, for example, the adventure of the phonograph. He took the instrument with him on his first expedition among the Indians, in the fond expectation of directly recording the native songs. One night at a gathering of old men he proposed that they sing into the machine, explaining with all the persuasive eloquence he could that he would then record their voices. The great white father refused. "Why?" he asked. "You send voice to Washington," replied an elder. "By and by, we want to sing, we want to talk, no singing, no talk. Voice gone to Washington."

He was reduced, he said, to recording the tribal music by a sort of musical shorthand, reproducing the tom-tom rhythm in the bass clef and the chanted melody in the treble. With four or five repetitions, while his pen raced over a sheet of music paper, he said, he was able to obtain a fair literal sketch, from which he could at leisure make a just and accurate transcription for the piano.

**Their Music in Minor Key.**  
"Indian music is predominantly in minor key," he said. "Nearly all primitive music is in the minor. It is the natural expression of natural people."

"Another chief characteristic, and a very perplexing one to us, is that frequently they beat the drums in one time and sing in quite another. The tom-toms may be in three-quarter time and the song in six-eight or four-four."

"In one respect their music is 'written' backwards. The climax does not come at the end, as in our music or any other. It comes right at the beginning, and then the music goes down and down and finally melts away into nothing."

Loring, whose home is in Portland, Me., became conductor of the Freiburg Passion Play after the late Frederick Fischer led it here, and conducted it for three years. He is stopping at Hotel Mayfair over the week-end, along with St. Louisans, plane to bring here, probably after the Municipal Opera season, the Brasilia religious spectacle, "The Prophet," which will open its American tour July 18 at Kansas City.

**REPEAL OF CHAIN STORE TAX BEATEN IN COMMITTEE**

Aldermanic Group Approves \$500 a Day Levy on Endurance Contests, Including Walkathons.

The Legislation Committee of the Board of Aldermen voted today to report unfavorably a bill which would repeal the recently enacted tax on chain stores and substitute a levy of \$25 on each store. The present ordinance, which is being contested in court, imposes a tax ranging from \$25 to \$250 on each store.

The committee approved a bill which would tax walkathons and similar endurance contests \$500 a day.

The F. W. Woolworth Co., S. S. Kress Co., John R. Thompson Co. and the White Castle System of lunchrooms filed intervening petitions yesterday in the suit attacking the legality of the ordinance taxing chain stores. The suit was filed last week by the Kroger Grocery and Baking Co., in which the Great Atlantic and Pacific Tea Co. and the United Cigar Stores immediately joined.

The case is set for hearing before Circuit Judge Hall on July 15.

**YOUNG MAN CHARGED WITH PASSING WORTHLESS CHECKS**

A young man was arrested after cashing a check at a store near Missouri avenue and Arsenal street yesterday, and according to police, admitted cashing 15 worthless checks since June 1.

The checks, ranging from \$15 to \$25, were collected at saloons, hardware stores, drug stores and one at the Missouri Business School, 2742 Cherokee street. The prisoner told police he had made small purchases and in the case of the school, had paid \$15 tuition for a course.

Some of the checks were stolen from a downtown sales promotion company and others were obtained from a North St. Louis bank. He was identified by six persons as having given them worthless checks.

**82000 Liquor Seizure on Liner.**  
NEW YORK, July 8.—Four hundred bottles of assorted liquor, valued by customs officials at \$2000, were seized aboard the White Star Liner Majestic after a two-day search, customs officials disclosed today. The liquor was found last night behind mirrors and panels in the third-class cabin. Some members of the crew probably secreted the liquor, officials said.

ULTIMATUM GIVEN ON  
MISSOURI POWER PLAN

U. S. Commission Orders Empire Co. to Accept License or Lose Priority.

Post-Dispatch Bureau, 201-205 Kellogg Bldg. WASHINGTON, July 8.—The Federal Power Commission has issued an ultimatum to the Empire District Electric Co. that it must accept by Dec. 1, 1932, a standard license for development of a \$30,000,000 hydro-electric project on the White River in Taney County, Mo., or lose the priority rights granted by the commission's preliminary permit.

The company had petitioned the commission for a delay, asserting that present economic conditions did not warrant immediate development of the project. The commission, in an opinion announced yesterday, held the public interest demanded that the company decide whether it would proceed with the development. The commission pointed out that if the company accepted the standard license, it would have a maximum of four years in which to begin construction and a "reasonable time" would be allowed to complete the project.

The Empire Co. has been trying for eight and a half years to get a Federal franchise to develop the hydro-electric possibilities of the White River in Taney County on its own terms. The hydro-electric project proper, according to the original applications, would cost about \$16,000,000, and ultimate ad-

## KILLED CLEANING RIFLE

ACCIDENT VICTIM RETURNED  
IN ALBERT C. RIEDELL DEATH

Landlady Chief Witness at Inquest; Funeral Services at 2 P. M. Tomorrow.

A coroner's verdict of accident was returned today in the death of Albert C. Riedell, executive secretary of the American Banking Institute, who was found fatally shot in his room at 663½ Washington boulevard yesterday.

Mrs. Elizabeth Black, the landlady, testified that she found Riedell lying on the floor with a .22-caliber rifle beside him. A bottle of oil, a railroad cleaning rag, were nearby. The bullet had entered the right eye, ranging upward. Riedell had previously been in good spirits, Mrs. Black said.

Funeral services will be at 2 p. m. tomorrow from the Suedmeyer Mortuary, 3534 North Twentieth street, with burial in Bellefontaine Cemetery. Surviving are two sons and a daughter, who live with their mother at 5118 Maple avenue. Riedell and Mrs. Riedell were divorced.

Riedell escaped from the prison on May 1, 1928, by walking out of

SHOTS HALT ESCAPE  
AT MISSOURI PRISONLifer Driven Back by Guards  
When He Tries to Get  
Over Wall.

By the Jefferson City Correspondent of the Post-Dispatch.

JEFFERSON CITY, July 8.—

Theodore Edward St. Louis life-

term convict failed in an attempt

to escape over the north wall of the

Missouri Penitentiary here last

night, when shots fired by tower

guards drove him back from the

wall. Before attempting the break

he had gained access to one of the

electric switchboards and turned

off the flood lights which illumin-

ated the prison ground at the point

where he tried to scale the wall.

Riedell escaped from the pris-

on in May, 1928, by walking out of

the prison with a convict labor

gang, carrying some tools, and then

slipped away from the labor de-

tail. He was recaptured in Toledo,

O. in November, 1929.

While Sadowski was at liberty, he mutilated his finger tips with razor blades, sandpaper and fire, in an effort to destroy the pattern of his fingerprints and thereby prevent identification. While his identification as an escaped convict was effected through photo-

graph, Bertillon experts said the

Sadowski as he attempted to en-

mutilate his fingers had failed to destroy the tell-tale whorls.

Sadowski recently had been as-

signed to operate an elevator in the

prison kitchen building and last

night obtained permission to work

late on repairs of the elevator. He

turned off the flood lights illumin-

ating part of the north wall about

10 o'clock and made his way to

the wall, carrying a long iron pipe

to which he had attached a large

hook. Guards began firing at

Sadowski as he attempted to en-

mutilate his fingers had failed to

destroy the tell-tale whorls.

Sadowski recently had been as-

signed to operate an elevator in the

prison kitchen building.

He is serving a life term from

July 25, 1922, for the murder of

John Arent in a holdup of Arent's

saloon at O'Fallon and Main

streets, St. Louis, on Dec. 24, 1920.

gave the hook at the top of the

wall. He fled and was caught by

guards before he could return to

the kitchen building.

He is serving a life term from

July 25, 1922, for the murder of

John Arent in a holdup of Arent's

saloon at O'Fallon and Main

streets, St. Louis, on Dec. 24, 1920.

A delightful, economical  
vacation...

DAMON RUNYON IS MARRIED

Sports Writer's Bride Is Patricia de  
Grande, Spanish Actress.

By the Associated Press.

NEW YORK, July 8.—Damon

Runyon, the sports writer, and

Ethel A. de Grande, an actress,

known on the stage as Patricia

Amrita Grider, were married yes-

terday by Mayor Walker in the

apartment of Mr. and Mrs. Eddie

Frayne. Frayne, also a sports

writer, was best man and Mrs.

Frayne was matron of honor.

Runyon is 45 years old and was

born in Manhattan, Kan. His first

wife died last year. Miss de

Grande, who is 25, is a native of

Spain.

**BROSSARD GETS BACK  
ON TARIFF COMMISSION**

Costigan, Former Associate,  
Loses Fight on Him in Sen-  
ate, 37 to 25.

By the Associated Press.

WASHINGTON, July 8.—Edgar B. Brossard of Utah will serve another term on the Tariff Commission. His appointment was confirmed by the Senate yesterday despite charges from Senator Costigan (Dem., Colorado), that he had represented "favor-seeking, tariff-protected interests."

Brossard's confirmation came without a record vote, after a motion by Costigan to send the nomination back to committee for further investigation was rejected, 31 to 25. Costigan once served on the Tariff Commission with him. Chairman Smoot (Rep., Utah), of the Finance Committee, defended Brossard as "an honorable, upright man" and one "well qualified for his place."

Explaining his vote, Costigan said: "I have no objection to the nomination of Brossard, but the hand has too often been the hand of favor-seeking, tariff-protected interests."

Recalling his own observation as a member of the commission of Brossard's activities "such as were not successfully hidden," from 1923 until 1928, Costigan said: "At least three commissioners were shocked by deplorable activities of his, of a prejudice and partisan sort." He added that Brossard "acted in a fashion which drew suspicion to him" and "proved anything but disinterested while serving as expert of the commission in the sugar investigation carried on by the Tariff Commission in 1923-24."

The Colorado Senator said the nominees worked to overthrow scientific findings of more expert members of the commission's staff during the investigation, and the subsequent appointment had no other justification than "a desire for service," rendered not to the Tariff Commission but to those private business interests which had resisted to the full extent of their ability, with the aid of President Coolidge, a report based without fear or favor on the facts found in the sugar investigation."

"If the plan is successful and

there is reasonable recovery in earnings, the company should be able, during the 10-year period covered by the plan, to pay off its entire floating debt, to retire the certificates issued for deferred interests and to improve its capital position to the extent of over \$70,000,000 by the retirement of bonds and capital expenditures from earnings."

By the Associated Press.

NEW YORK, July 8.—Jacob Katzman, for many years prominent on the Jewish stage, died yesterday at his home, after a brief illness from heart disease. He was 67 years old.

In addition to playing on the Jewish stage, he appeared in several Broadway productions. The last time was about a year ago, with Edward G. Robinson in "The Kibitzer." He was in the supporting company when Bertha Kalisch made her first appearance in a drama in the English language. Among the prominent Jewish actors with whom he appeared were Jacob P. Adler and David Kessler. He toured Europe and South Africa, and in Johannesburg a theater was named after him. Katzman is survived by his wife and six grown children, all living in New York.

It was charged that Mrs. Hansen wrote a letter to the Rear Admiral's wife signed "A Society Hater," threatening her with death unless \$2000 was delivered to a designated spot. Paul W. Hansen, the chauffeur, was arrested, but released later.

By the Associated Press.

LOS ANGELES, July 8.—Accused of attempting to extort \$2000 from the wife of Rear Admiral David F. Sellers of the United States navy, Mrs. Eloise Anna Hansen, 20 years old, pleaded guilty in Superior Court yesterday and was sentenced to three years probation. Mrs. Hansen is the wife of Sellers' chauffeur. Judge Isaac Faicht said he allowed probation because she had a good record otherwise and was an expectant mother.

It was charged that Mrs. Hansen

wrote a letter to the Rear Admiral's wife signed "A Society Hater," threatening her with death unless

\$2000 was delivered to a designated

spot. Paul W. Hansen, the chauffeur, was arrested, but released later.

By the Associated Press.

NEW YORK, July 8.—"MERCY" SLAYER IS SENTENCED

III and Penitent, Husband Killed  
Wife, Shot on Probation.

By the Associated Press.

LOS ANGELES, July 8.—Ramon Grjolja, 30 years old, whose story of the shooting of his wife brought a plea for clemency from the District Attorney's office, was sentenced yesterday to five years to life in prison. He had pleaded guilty to second degree murder.

Grjolja said he and his wife were suffering from tubercular infections. Penitent and without food, they entered into a suicide agreement. He said he shot and killed his wife and then turned the weapon upon himself, but survived a dangerous wound.

DEARMONT CAMP  
HALES DESERTION  
OF WILSON LEADER

Speakers for Candidate Say  
Terrence Riley's Switch  
Indicates Bandwagon Has  
Been Ditched.

By CURTIS A. BETTS.  
The loss to the Francis M. Wilson organization of the support of Terrence Riley, member of the Democratic State Committee and chairman of the Democratic County Committee of Platte County, Wilson's home county, has become the leading subject of discussion in the Dearmont-Wilson campaign for the nomination for Governor.

Dearmont speakers and officers of Dearmont clubs are making the most of it as evidence of the correctness of their contention that there has been a smashup of the Wilson bandwagon. Dearmont speakers are so far unable to counteract the effect of Riley's switch by producing any prominent Dearmont leader who has gone over to Wilson, have attempted to explain Riley's action by an assertion that he is a local public utility attorney in Platte County.

At several meetings last night Riley was the main topic. Samuel H. Liberman, chairman of the Dearmont Speakers' Committee, asked at a Sixteenth ward meeting: "When a candidate is reburied in his own home county, what can he expect from the rest of the state?"

George T. Priest of the Wilson group of speakers said at Tenth ward meeting, that Riley was an attorney for utility companies that he switched to Dearmont several months ago, and that all the remainder of the Platte County committee was supporting Wilson. "A Certain Indication."

Kenneth Teasdale, president of the Dearmont Club in St. Louis, said today that Riley's abandonment of Wilson and his support of Dearmont was "a certain indication that the Wilson bandwagon had broken down after six years of continuous use and that the riders were leaping to the Dearmont wagon as it went by."

"Senator Wilson's strength of a few months ago was largely due to the fact that he began campaigning for renomination immediately after his defeat in 1928. Many Democrats of influence joined in supporting him at a time when they did not know what he was to have opposition. Early last spring it was a bandwagon proposition."

"Then Senator Dearmont entered the race. For four months he has been campaigning actively and his strength has grown every day. During all that time Wilson has been inactive."

"The voters have seen in Dearmont an aggressive, fighting Democrat; the kind of a man they want to head the state ticket. They know of his record as an active participant in Democratic politics through several campaigns. In Wilson they have been able to see only a man who has taken no part in politics except as a candidate trying to get into office. He has made no speeches for the party, and, according to former Chairman Howell of the State Committee, did not even contribute to the party campaign fund when he was the nominee in 1928."

"Bandwagon in Ditch."

"We in the Dearmont organization have seen the change in sentiment, beginning gradually more than three months ago and growing stronger. It is now simply that the Wilson bandwagon has broken down and is in the ditch. Wilson has been using it for six years and he has not been able to repair the cracks which have developed. The Dearmont wagon has passed him by and picked up the passengers."

Dearmont this week has been pushing his campaign in the distant Wilson territory in the western part of the State, delivering four or five speeches a day. Wilson is continuing his policy of delivering no speeches. Dearmont today is in Cedar, St. Clair and Henry Counties, and tomorrow is scheduled for another speech in Johnson and three speeches in Johnson County.

STATE FAIR ART EXHIBIT  
Co-Operative Plan Adopted to Obtain Funds.

In order to insure the continuation of an annual exhibit of works by St. Louis artists at the Missouri State Fair at Sedalia, a co-operative plan has been adopted under the auspices of the Artists' Guild Exhibitions Committee whereby each artist participating provides funds for transportation expenses.

For the last 15 years funds for the exhibit have been provided by the St. Louis Art League. This year, however, the Art League has not obtained an appropriation from the State for the display. For that reason the co-operative plan has been adopted. J. Scott MacNutt, 72, a devotee of the place, is chairman of the Artists' Guild Exhibitions Committee which is sponsoring the plan.

Nadine Min Gets Annulment.  
By Associated Press.

MONTICELLO, N. Y., July 8.—

The marriage of Tom Mix's daughter, Ruth Jane Mix, and Douglas Gilmore was annulled yesterday.

The pair were married at Yuma, Ariz., June 9, 1930. Miss Mix giving her age as 18 and Gilmore, a Hollywood actor, as 27. Mrs. Gilmore more testified that they had lived together only three weeks, said her husband never supported her and that he drank a "great deal."

OF WILSON LEADER

Speakers for Candidate Say  
Terrence Riley's Switch  
Indicates Bandwagon Has  
Been Ditched.

By CURTIS A. BETTS.  
The loss to the Francis M. Wilson organization of the support of Terrence Riley, member of the Democratic State Committee and chairman of the Democratic County Committee of Platte County, Wilson's home county, has become the leading subject of discussion in the Dearmont-Wilson campaign for the nomination for Governor.

Dearmont speakers and officers of Dearmont clubs are making the most of it as evidence of the correctness of their contention that there has been a smashup of the Wilson bandwagon. Dearmont speakers are so far unable to counteract the effect of Riley's switch by producing any prominent Dearmont leader who has gone over to Wilson, have attempted to explain Riley's action by an assertion that he is a local public utility attorney in Platte County.

At several meetings last night Riley was the main topic. Samuel H. Liberman, chairman of the Dearmont Speakers' Committee, asked at a Sixteenth ward meeting: "When a candidate is reburied in his own home county, what can he expect from the rest of the state?"

George T. Priest of the Wilson group of speakers said at Tenth ward meeting, that Riley was an attorney for utility companies that he switched to Dearmont several months ago, and that all the remainder of the Platte County committee was supporting Wilson. "A Certain Indication."

Kenneth Teasdale, president of the Dearmont Club in St. Louis, said today that Riley's abandonment of Wilson and his support of Dearmont was "a certain indication that the Wilson bandwagon had broken down after six years of continuous use and that the riders were leaping to the Dearmont wagon as it went by."

"Senator Wilson's strength of a few months ago was largely due to the fact that he began campaigning for renomination immediately after his defeat in 1928. Many Democrats of influence joined in supporting him at a time when they did not know what he was to have opposition. Early last spring it was a bandwagon proposition."

"Then Senator Dearmont entered the race. For four months he has been campaigning actively and his strength has grown every day. During all that time Wilson has been inactive."

"The voters have seen in Dearmont an aggressive, fighting Democrat; the kind of a man they want to head the state ticket. They know of his record as an active participant in Democratic politics through several campaigns. In Wilson they have been able to see only a man who has taken no part in politics except as a candidate trying to get into office. He has made no speeches for the party, and, according to former Chairman Howell of the State Committee, did not even contribute to the party campaign fund when he was the nominee in 1928."

"Bandwagon in Ditch."

"We in the Dearmont organization have seen the change in sentiment, beginning gradually more than three months ago and growing stronger. It is now simply that the Wilson bandwagon has broken down and is in the ditch. Wilson has been using it for six years and he has not been able to repair the cracks which have developed. The Dearmont wagon has passed him by and picked up the passengers."

Dearmont this week has been pushing his campaign in the distant Wilson territory in the western part of the State, delivering four or five speeches a day. Wilson is continuing his policy of delivering no speeches. Dearmont today is in Cedar, St. Clair and Henry Counties, and tomorrow is scheduled for another speech in Johnson and three speeches in Johnson County.

STATE FAIR ART EXHIBIT  
Co-Operative Plan Adopted to Obtain Funds.

In order to insure the continuation of an annual exhibit of works by St. Louis artists at the Missouri State Fair at Sedalia, a co-operative plan has been adopted under the auspices of the Artists' Guild Exhibitions Committee whereby each artist participating provides funds for transportation expenses.

For the last 15 years funds for the exhibit have been provided by the St. Louis Art League. This year, however, the Art League has not obtained an appropriation from the State for the display. For that reason the co-operative plan has been adopted. J. Scott MacNutt, 72, a devotee of the place, is chairman of the Artists' Guild Exhibitions Committee which is sponsoring the plan.

**CONVICTION OF O'CONNOR**  
**FOR BANK ROBBERY UPHELD**  
East St. Louis Gangster to Serve  
25 Years for Crime in  
Lincoln, Neb.  
By the Associated Press

LINCOLN, Neb., July 8.—The conviction of Thomas "Fat" O'Connor of East St. Louis, Ill., as a member of the gang which carried away \$2,000,000 in cash and securities in a bold daylight robbery of the Lincoln National Bank and Trust Co., Sept. 17, 1930, was upheld today by the Nebraska Supreme Court.

O'Connor was one of six gangsters arrested May 9, 1931, in a raid in East St. Louis. He was convicted on the bank robbery charge last October and sentenced to 25 years in prison.

#### KIRKWOOD ABSORBS U. S. TAX ON ELECTRIC LIGHT BILLS

The Kirkwood City Council voted last night to absorb the 3 per cent Federal tax on electric light bills by increasing the discount to consumers using current from the city-owned power plant from 16 2/3 per cent to 20 per cent on bills paid within 10 days.

The increased discount will be effective for two years, or for the duration of the Government tax, and will result in a saving to consumers of about \$4000 a year, it was said. The gross revenue of the lighting department is about \$110,000 annually.

#### CITIZENS' CAMP OPENS TUESDAY AT BARRACKS

1600 Student Soldiers From  
Missouri and Illinois to  
Take Course.

Camp Atwell T. Lincoln, the ninth Citizens' Military Training Camp at Jefferson Barracks, will open next Tuesday when 1600 young men from Missouri and Illinois will report for four weeks' training.

Because the War Department appropriations bill, including the annual request for funds for the training of citizen-soldiers, is still in discussion in Congress, Camp Atwell T. Lincoln will be financed from other funds. The training is without expense to the students, who receive transportation to and from their homes.

Due to experience gained in previous camps, facilities for housing, feeding and training the student-soldiers are better than ever before, officers in charge of the training program report. On reaching camp Tuesday the students will be "processed." This includes a rigid physical examination, the storing of civilian clothing, the donning of khaki and assignment to companies. This system, developed in the C. H. T. C. training, would be used in case of an emergency where a large force of civilians were called to the colors.

Early Wednesday morning the students will be awakened by reveille. Mornings will be devoted to training in citizenship, hygiene, first aid, calisthenics and close order drill. As the training progresses, while the students become familiar with the rifle there will be periods on the rifle range. In fact, several students have made exceptionally good records for marksmanship.

Afternoons are devoted to supervised athletics, with every student required to participate in some form of sport. The C. H. T. C. movement from its inception has stressed physical development, and has been assisted materially by the American Red Cross, which takes charge of swimming instruction and part of the entertainment program. Boxing and wrestling bouts with student principals will be held several times weekly during the camp at the post stadium, which seats 3500 persons.

A limited number of medical and infantry reserve officers has been ordered to report at Jefferson Barracks to assist the regular personnel in the examination and training of the students. The camp will be under the command of Lieutenant-Colonel Walter Krueger, new commander of the post.

Capt. Atwell T. Lincoln, in whose honor the camp has been named, was a St. Louisian, who was killed in France while serving with the 34th Infantry, Eighty-ninth Division.

The several streets of Camp Lincoln will be named for other former members of the Eighty-ninth Division, who gave their lives in the service. They are: Charles Disalvo, Sam C. Poole, William R. Peck, Mark L. Wilt, Samuel Mogenstern, Grant Clayton Smith and Edward Barrey.

**MRS. ROOSEVELT POINTS OUT  
LESSON FROM DEPRESSION**

It is "One Part of Country Cannot  
Prosper While Rest Stagnates,"  
She Says in Speech.

CHAUTAUQUA, N. Y., July 8.—Mrs. Franklin D. Roosevelt, wife of the New York Governor and Democratic presidential nominee, told a Chautauqua audience yesterday of her vision of a "reconstructed economic system," in which "all who are honestly willing to work shall receive adequate compensation." Her address was sponsored by the Chautauqua Women's Club of which she is a life member.

"One important lesson we have learned from the depression," she said, "is that one part of the country cannot prosper while the rest starves."

Declaring that increasing material prosperity prior to 1929 had caused a softening of national character, she continued: "It is good we had to come to a halt. We must go back to the old pioneer habits."

"We hope we are learning that this concentration of power in the hands of a few people is bad," she said, adding: "We must never consent to a lowering of the standard of living, but we must insist that it shall hold for all people. I am no friend of paternalism, and I do not want charity."

**DRUGGIST ADMITS BANKRUPTCY**

M. J. Miller Places Assets at \$22,  
000. Liabilities \$22,000.

Morrison J. Miller, proprietor of the Miller Drug Co., 927 Market street, filed a voluntary petition in bankruptcy in the Federal Court yesterday. He lists his liabilities at \$42,142 and assets at \$22,075. The liabilities consisted largely of \$21,200 in secured claims and unsecured claims of \$20,881. The major items in the assets are real estate valued at \$14,500 and stock \$6300.

An involuntary petition in bankruptcy was filed yesterday against Fred A. Schepeler, a building contractor, by two alleged creditors, the Wiles-Chipman Lumber Co., with a claim for \$535, and the Condie-Bray Glass and Paint Co., with a \$156 claim. They allege that Schepeler admitted bankruptcy by consenting to a receivership in State court recently.

## DEMPSEY WANTS TO BOX SHARKEY BUT 'TIME IS NOT RIPE' ACIN

FORMER HOLDER OF WORLD TITLE SAYS HE STILL CAN BEAT SAILOR

SAN FRANCISCO, July 8.—Jack Dempsey says he wants to fight Jack Sharkey, world's heavyweight boxing champion.

But the former champion, after expressing the wish for a 15-round title bout, in an interview last night, added that the time was not ripe for such a fight, with boxing at a low ebb.

Dempsey recalled knocking out the Boston sailor in the seventh round of a fight in 1927, and said he believes his same tactics would be successful again.

"If there's one man I can beat it's Jack Sharkey," said Dempsey. "I have looked at the Sharkey-Schmeing pictures and think Sharkey has slowed up considerably since I fought him. Furthermore, he's the type of fighter I think I can beat. He comes in on you, and is particularly susceptible to a body attack."

**Nurmi Arrives, Refuses to Talk About Suspension**

NEW YORK, July 8.—Paavo Nurmi, as stoic and uncommunicative as ever, arrived with nine other Finnish track and field stars on the liner Mauretania today, intent on winning the Olympic marathon at Los Angeles, and then hanging up his track shoes.

Interviewed as the big liner slowly felt her way up the bay through a light fog, Paavo said if his suspension was lifted by the International Athletic Federation and he won the long grind at Los Angeles, he planned never to race again.

He declined to discuss his suspension by the I. A. A., which investigated charges of excessive expense accounts and failure to appear at scheduled meets, and answered most of the questions put through an interpreter proved a shake of the head or a nod.

Nurmi did say he was glad to be back in the United States and that he liked this country very much, but he was non-committal on other subjects, including his own condition and the chances of various athletes in the games.

Among the members of the Finnish party was Lauri Lehtinen, hailed as Nurmi's successor at the shorter distances, and who recently broke Paavo's world records for the 5000-meter and three-mile runs. Lauri speaks no English and efforts to interview him through an interpreter proved futile.

Janusz Kosocinski, Polish runner, also was a passenger on the Mauretania.

The Finnish delegation traveled tourist class, to save expenses.

They planned to go directly to Baker Field, Columbia University's athletic plant in Manhattan to work off their sea legs. They will leave at noon tomorrow for Los Angeles.

**IRISH HURLERS DEFEAT ST. MARK'S TEAM, 1-0, IN TWILIGHT CIRCUIT**

The Irish Hurlers defeated the St. Marks, 1 goal to 0, in last night's match in the St. Louis Twilight Soccer League at Sherman Park. Lack of experience beat the St. Marks eleven, which replaced the German Sports Club. The lone point of the game was tallied by Ruggles. The match was cleanly played. Referee Reidy being called upon to impose but one personal foul.

As a result of the victory, the Irish Hurlers increased their league lead to three points. Only two more weeks of play remain.

The Fosters and St. Edwards are scheduled to meet this evening.

**BUCKEYES TO BROADCAST FOOTBALL CONTESTS**

By the Associated Press.

COLUMBUS, July 8.—Ohio State University will continue to broadcast its home football games, Athletic Director L. W. St. John said today.

St. John explained that "our experience seems to show that radio cuts down football attendance," but that "we appreciate the friendly interest and support shown by the public in the university and its athletic teams. We are taking this interest fully into account in arranging to broadcast next fall's games."

## Amateurs

The National Sporting Goods team will play the Browns at Murphysboro, Ill. Sunday. Also, the Browns will play the battery for the Nationals against Byrd and W. W.

The Amherst, N. C., wants games in the 14-16-year-old class. Address Joe Silverstein, 1127 Walton Avenue, Forest 1790.

The Walkers will play the Negro All-Stars in the 14-16-year-old class. The Walkers last season won the championship of the Southern St. Louis County League.

Ford All-Stars defeated the Midway Red Sox, 13 to 3. Winners want games with the Browns, W. W. and W. W. on 28th Street.

Matthew Tigue wants game for Sunday. Phone 27-1111. W. W. and W. W. on 28th Street.

Interest or confirmation will be given to the address of Norman Gibson, 2003 1/2 Ward Street.

White Eagles 10 after games. Address Ray Schaefer, 28th and Young Street. Phone Prospect 4855.

## WRAY'S COLUMN

Aiming High.

QUIPOISE, the year's greatest West race horse, will try to equal or surpass the world's record for one and one-quarter miles tomorrow, when he competes in the Arlington Gold Cup race.

It is significant that the stable connections make no mention of the man's WINNING of the race, taking that for granted. This confidence, of course, is due to successive victories by Equipoise, one of which resulted in the smashing of the world's record for one mile.

But beating the mile and smashing the man for one and one-quarter miles are two different matters.

Another horse had wagged the flag for him. But the horsemen still argued.

"Look at the fractional time," they argued. "It isn't possible for a horse to do what Whisk Broom II is credited with having done. No horse can run the last half mile of a mile and one-quarter race in 48 seconds," they contended.

But the timer insisted that it was "not only possible" but that Whisk Broom II had done just that.

"That's no mistake about it."

### A Queerly Run Race.

THE official time reveals the race was a peculiar one. The first quarter was run in 24, the half in 47 1/5, the three-quarters in 1:12. Nothing sensational there. Man o' War, in his best mile and a quarter event, ran the first six furlongs in 1:19 1/5.

But the last half mile of Whisk Broom's effort, in order to make good the time in 2:00, must have been run in just 48 seconds. That is most unusual. Man o' War ran the last half of his best 1 1/4 mile race in 51 4/5 seconds and Twenty Grand did 50 in his fastest race.

Also, the first quarter was not the fastest nor was the last quarter the slowest, as usually works out in races. The second was run faster than the first and the fourth and fifth quarters averaged 4 1/2 seconds faster than the first and the last.

Without attempting to explain the peculiarities of the race, the official timer saw no chance of error and so the race stands today as the best mile and one-quarter time ever recorded.

### Not the Only One.

IT is true that other horses have run the distance in 2:00—two others to be exact. Both were English horses and both achieved their times in 1922, one at Newmarket and the other at Brighton.

However, neither carried the weight packed by Whisk Broom II. One of them, Harry Forrard, a five-year-old, had only 75 pounds up. The other was Top Gallant, a three-year-old which carried 125 pounds.

Figure at the usual handicapping figures, the difference in weight meant that if all three of these horses met at 139 pounds, Whisk Broom II would have beaten Top Gallant at least three lengths.

However, neither carried the weight packed by Whisk Broom II.

## RACING ENTRIES AND SELECTIONS—OTHER SPORT NEWS

## HOCKEY SANDE PLANS INVASION OF FRENCH TURF

## RACING ENTRIES

Associated Press.  
NEW YORK, July 8.—Earl Sande, who rode to fame on some of his greatest thoroughbreds, is back for an invasion of French turf.

It is difficult to make the popular little jockey difficult to find for France as soon as I can arrange affairs here I'll be on my way," he said.

Now he will remain abroad to obtain and win with them. If successful, Sande probably will be the remainder of his riding showing the French how America's premier jockey has returned to the turf this year after a year in the movies.

He frequently made 115 pounds and entailed much hard riding and dieting. His figures are easily made 115 pounds and a weight should get him plenty in France where there are more weight for age and scale events.

It keeps me working hard to keep him at 115," Sande told the Associated Press, "and I believe I'll be better off in France where there is no need to worry constantly about diets, road work and steam bathes."

Sande has been a constant bug for Sande since he gave up racing and turned to training his horses three years ago. In 1930, however, he entered into a pact with William Woodward and Gallant Fox, and with the carrying 126 pounds in most of his races, Sande was in his element.

William Ryan, American sportsman racing a large stable in Canada, was instrumental in persuading Sande to desert the American turf.

In invading Europe, Sande will follow in the footsteps of great American jockeys, notably Tod Sloan who rode with success both in France and

and at Empire City.

## TWO ESCAPED CONVICTS FOUND PLAYING GOLF

Mail Robbers Who Got Away From Leavenworth Caught at Kansas City.

By the Associated Press. KANSAS CITY, Mo., July 8.—Two men identified by police as escaped Federal convicts were arrested when they finished a game at a public golf course here yesterday. A Federal operative and Kansas City detectives who made the arrests said the two were Thomas Holden, 35 years old, and Francis L. Keating, 23, convicted in Chicago in 1928 of participating in a \$135,000 mail train robbery at Elgin Park, Ill. Thomas J. Higgins, Captain of Detectives, said the two admitted their identity. Records at the Federal penitentiary at Leavenworth show the men escaped Feb. 28, 1930.

Also taken in custody was a man who gave his name as John Brown and his address as Chicago; Mrs. Marjorie Keating, 24, and Mrs. Lillian Holden, 20, said by police to be the wives of the ex-convicts. Brown was with Holden and Keating; the women were seated in an automobile near the clubhouse.

In the women's car officers said they found a traveling bag containing two loaded automatic pistols, ammunition and \$70 in gold. Brown's wallet was said to have contained more than \$1000 in currency and a \$500 Liberty bond.

Higgins said the two had been under surveillance and would be questioned regarding the machine-gun slaying here last February of O. P. Carpenter, detective. Carpenter was shot as he attempted an early morning attempt to rob a downtown bank.

## French Submarine That Sank With 66 Located; Survivors Tell of Disaster

Italian Divers Who Salvaged Gold From the Egypt Called to Help in Effort to Raise Craft.

NICOLI SEMENOFF, famous Russian dancer, who committed suicide, July 6, by plunging to his death over Niagara Falls. The reason for his act was revealed in a letter to a friend, in which Semenoff said, "I cannot bear any longer the slander and persecution of the ballet." Semenoff had been in Cleveland for the past eight years as a teacher.

Stockholders' Advisory Committee of the Farm and Home Savings and Loan Association of Nevada, Mo., which failed recently. They are C. H. Johnston, James J. Lynn, Dr. Frank D. Dickson and P. S. Harris. George W. Wagner, State Supervisor of Building and Loan Associations, said 15 or 20 men would be named to the Advisory Board.

Home Savings & Loan Advisers. By the Associated Press.

KANSAS CITY, Mo., July 8.—Four Kansas City men were named last night as members of

By the Associated Press.

CHERBOURG, France, July 8.—The French Navy, refusing to give up hope that the 66 men who went down with its submarine Promethee near here yesterday are alive, decided today to call for help from Italian divers whose doggedness recently was successful in recovering golden treasure from the sea.

The maritime prefecture early this morning sent a radio message to the captain of the Italian salvage ship Artiglio II which recently raised \$5,000,000 in gold from the hold of the sunken steamer Egypt, asking that it come to search for the Promethee and its men.

Salvage vessels reported air bubbles on the surface this afternoon. They also found the Promethee's telephone buoy, but there was no sound from the other end of the wire.

The Minister of Marine announced before noon that the scuba Ailette had located the position of the Promethee seven miles north of Cap Levi lying in approximately 245 feet of water.

Minister of Marine Leygues immediately communicated with the Italian salvage ships, the Artiglio and the Rosto, and both were ordered to the scene of the disaster immediately with their divers, accustomed to the deepest sea diving and also to the stormy Channel weather.

Commander of Craft Saved.

In the meantime the navy concentrated all its available resources. Three tugs, two submarines and

four seaplanes took up the quest over the spot where the Promethee went down suddenly yesterday during tests which were being made to correct irregularities in its mechanism.

With Admiral Malavoye, chief of the searching crew was Lieut. Couespel du Mesnil, commander of the ill-fated submarine, who was saved, with six others, when the ship went down by being hurled into the sea.

Throughout the night searchers for the hull were hampered by the fact that the buoy, to which Lieut. du Mesnil and his colleagues had clung until they were rescued by the fishing craft, had sunk, but it was hoped with calmer seas this would again be visible.

Officials of the maritime prefecture said they were still unable to form any definite opinion as to the cause of the sudden sinking of the submarine. They said they knew nothing of reports it was sunk by an explosion but a trawler which crossed the spot reported a large spot of oil over the place soon after the ship went down.

The seven survivors knew nothing of an explosion, they said. All they could say was they were on the deck at the time and felt the submarine sink abruptly under them, as it had sprung a sudden leak. A moment later they found themselves struggling in the sea, without a suspicion of what had caused the tragedy. Naval authorities said that, with no evidence of what happened inside the ship, they could not even conjecture the cause.

Commander Cannot Explain.

Commander du Mesnil said he was not able to explain the accident. "I heard a noise on the deck," he said, "and, thinking a man was overboard, I sprang up the ladder. I was dumbfounded to see the deck awash, and as I climbed out the hatch I felt the ship sink under me and I was thrown into the sea. It is impossible to explain how it happened."

Violent currents prevailing around the spot made salvage operations difficult in the extreme. The spot is nearly exactly opposite the place where the British Navy labored last January for days in a fruitless effort to rescue the crew of the submarine M-2 when it sank as suddenly as the Promethee disappeared yesterday.

The Promethee had been in service two years. It had not been working well and a number of civilian experts were aboard yesterday when it set out to make diving trials.

It was estimated 49 members of the crew and 17 others, including engineers and workmen, went down with the ship. The correspondent of the Paris newspaper Le Matin, however, estimated the number at 70.

All the rescue operations, and the hope of the navy that at least some of the men might have survived within the ship, were based upon the theory that they might have found time to close the water-tight hatches before the seas rushed into the hold.

If the compartments were closed and there were no serious breaks in the hull, they said, it was reasonable to expect the crew ran no immediate danger of death.

Fishing Boat Saves Seven.

Lying in Cherbourg harbor is France's special floating dock, built especially for the raising of submarines.

The rescue of the seven who escaped was due largely to the nearness of the fishing trawler Yvette II, which was lying near the spot letting out its nets.

A number of men standing on the submarine's deck seemed to be flung into the air, they said. The fishing boat immediately cut its nets and started full speed for the spot where the skipper, climbing along, saw seven heads bobbing in the water.

There was a belief that others of the crew were on deck at the time, too, but were dragged down by the suction caused by the sinking hull. The seven survivors were in the water an hour before they were dragged out.

The disaster was the first to a French submarine since 1928 when the Ondine went down off Portugal after a collision with a Greek steamer. Forty-three perished in that accident.

Leaky oil tanks and possibly poor functioning of the submarine's exhaust or a maladroit maneuver by one of the civilians aboard were given unofficially as possible causes of the submarine's sudden dive.

The seven survivors said the ship was seaworthy, that they were proud of her and had no qualms about sailing in her. The five enlisted men who were saved are resting in the marine hospital.

Sailor Tells His Story.

Survivors of the disaster are the heroes of the town, sharing honors with the skipper of the fishing boat which brought them ashore.

Joseph Gougeon, one of the submarine's men, told his story of the sinking today.

"She went down in less than 30 seconds," he said. "Five of us were on the top side, and we went off into the water when the ship went out from under our feet. "Lieut. du Mesnil, the commander, was down below when there was a noise like a shill hiss. He jumped up a ladder as fast as he could to see what was wrong and got out just as the ship went down. "He tried to reach the telephone

buoy, which was tied to the ship on a 100-foot line, but things were moving fast and we all swam to a salvage buoy where we were on for an hour and 15 minutes with four other fellows and the skipper."

"One of the men was pretty lucky. He was down below where you can't smoke and had just come up for a drag on a cigarette. He had no sooner got it lit than the ship went down."

Commander du Mesnil was quoted as having said that perhaps someone by error had started the diving machinery.

All the men who were saved will be required to testify before a board of inquiry which already has begun an investigation.

Saw Four Doors Closed.

Another of the seven men who were saved told a story this morning which, if it was accurate, indicated some of the men in the ship might have been drowned very quickly.

This man was on the deck when the Promethee sank. There was a hissing noise which brought the captain up from below in a hurry.

Apparently the captain saw at a distance that his ship was in danger, for he ordered all hands below and all doors shut quickly.

"Four doors were kicked shut," said the sailor, "but there was another open to the officers' compartment. I saw one of the men try to close it but it jammed. Then the ship went out from under our feet and we were swept into the water. It looked to me as though the sea would go through that door with nothing to stop it."

Four seaplanes took up the quest over the spot where the Promethee went down suddenly yesterday during tests which were being made to correct irregularities in its mechanism.

With Admiral Malavoye, chief of the searching crew was Lieut. Couespel du Mesnil, commander of the ill-fated submarine, who was saved, with six others, when the ship went down by being hurled into the sea.

## SAYS U. S. FIRM OPPOSED PUBLICITY ON KREUGER DEALS

Partner in Lee, Higginson & Co. Testifies Another Concern Had Opposite View.

By the Associated Press. NEW YORK, July 8.—Donald Durant, partner in Lee, Higginson & Co., testified at a bankruptcy hearing today that prior to the suicide of Ivar Kreuger there were in this country conflicting elements differing on his manipulation of his many interests.

Durant and his firm was opposed to any publicity in connection with the failing enterprise of the Swedish match king. On the other hand, he said, Eastman, Dillon & Co. urged general publication of

Kreuger in Paris on March 11, stating misleading newspaper items about the postponement of dividend payments on preferred stock of the International Match Co. and about the need for additional financing for a steel subsidiary of the Kreuger companies had unfavorably affected the match stocks.

The message, as read by Javits, also told Kreuger that Durant suggested nothing be published. It was sent the day before Kreuger shot himself in a Paris hotel.

"I couldn't see any benefit from

having the name always in the pa-

pers," said Durant today.

Durant testified that \$11,000 worth of furniture in Kreuger's New York offices had been paid for by Kreuger & Toll. This pointed out, is another asset appearing to be due creditors Kreuger & Toll.

The message, as read by Javits,

also told Kreuger that Durant suggested nothing be published. It was sent the day before Kreuger shot himself in a Paris hotel.

## LETTERS FROM THE PEOPLE

Does the Tanaka Memorial Exist?  
To the Editor of the Post-Dispatch:  
I WAS interested in reading David C. H. Lu's article on the Tanaka Memorial, as well as your recent editorial on the "Alleged Japanese Plot." I thoroughly agree with Mr. Lu that such a document could very well be in actual existence. In reviewing the diplomacy of the Far East, one can frequently experience difficulty in determining the authenticity of a number of the notes, treatises, agreements and pacts that have been cited by the various Far Eastern governments in their endeavors to gain their objectives.

I here have particularly in mind the alleged "Secret Protocol" to the Sino-Japanese "Treaty" of Dec. 22, 1905, in which Japan claimed that China engaged,

"for the purpose of protecting the interests of the South Manchurian Railway, not to construct prior to the recovery by them of the said railway, any main line in the neighborhood of and parallel to that railway, or any branch line which might be prejudicial to the interest of the above-mentioned railway." Japan used this argument to assist in the defeat of the Sino-American Chinchow-Aigun railway project and the Knox neutralization plan for Manchurian railways in 1910. The validity of this protocol would seem to be substantiated in that Japan signed a number of agreements with China that were called for in this alleged pact. But later, when it suited Japan not to object to Chinese railway construction since it was fitting the growing needs of Manchuria economically, and since the money for construction was largely being lent by Japan, she no longer urged the enforcement of the above alleged secret pact. So there are we?

Right back where we started.

With reference to the alleged Tanaka Memorial, while such a document may have been in existence, the documents contained therein have seemingly crept into evidence through the tusslings of Japanese policy in Manchuria since 1931. Here is one instance: The actual trouble that wound up finally with Shanghai and with a puppet state in Manchuria in 1932 started over Chinese soldiers killing a Capt. Nakamura of the Japanese army, together with three associates, July 25, 1931. This captain was traveling in Manchuria under a passport as a school teacher, and on his person were large sums of money. Now, in the alleged memorial it was stated that, in order to carry out Japanese plans, 1,000,000 yen should be appropriated from "secret funds" of the Army Department's budget to send 400 retired army officers into this region disguised as teachers and Chinese citizens, for the purpose of laying the "foundation for Japanese national interests for the next hundred years." So what have we?

W. M. HAGER.

Columbia, Mo.

Arthur Hyde's Genius.  
To the Editor of the Post-Dispatch:

ONE reads with a great degree of interest and a still greater degree of awe and reverence the criticism of Gov. Roosevelt's reforestation plan by the great and only Secretary of Agriculture.

Here we find that one man, "with a reasonable degree of efficiency," can dig the necessary hole, plant the tree, replant it, turn the earth about the tree—which is supposed to live and grow, in 30 seconds.

Not only can he do this with one tree, but he can keep up this same speed—with only a reasonable degree of efficiency"—over a three-hour stretch. Not only can one man do this, but in this wonderfully organized and efficient country there can be procured 1,000,000 men who can equal that same record.

One is led to wonder, with a man capable of producing that degree of efficiency and speed from common laborers, why this colossal organizing and producing genius has not developed in the past four years a force in the Agriculture Department which will turn out the work with the same degree of speed, reducing the cost accordingly.

We are anxious at figures and at organization lost in such a lowly position as Secretary of Agriculture, when the world demands men of action, foresight, judgment and analytical ability? Echo answers, "Why?"

MERELY WONDERING.

A Way to Save Federal Money.  
To the Editor of the Post-Dispatch:

JUST want to call your attention to one thing where real economy could be effected without the least bit of detriment to the country, and that is to discontinue the Reserve Officers' Training Camps for one year, as well as the Citizens' Military Training Camps. Thousands of reserve officers are ordered to two weeks' active duty in their grade, which draws the same salary as equivalent grades in the Regular Army. From personal observation, I venture to say that 50 per cent of this is absolute waste, as it amounts to nothing more nor less than paid vacations at the expense of the Government. Some men, of course, are earnest and really get some knowledge that may do the country some good in case of another war. The Citizens' Military Training Camps, which train the young boys for a month, are much more important, but even they could be dispensed with for a year without much harm.

READER.

## MORE LIGHT, GOV. ROOSEVELT.

"I will leave no doubt or ambiguity on where I stand on any question of moment in this campaign," declared Gov. Roosevelt in his address of acceptance. It was a heartening promise. The American people will expect him to keep it.

They will want to know, for instance, exactly where he stands on the matter of farm relief. Both the Governor and the Democratic platform denounce the speculative activities of the Federal Farm Board. But the Governor has said that he proposes to "add to the world prices of staple products the amount of a reasonable tariff protection to give agriculture the same protection that industry has today."

How is this purpose to be accomplished? Is this a declaration for the equalization fee or the debenture or some similar valorization plan? If so, how does it differ from the recent activities of the Farm Board? If not, what can it mean?

The platform wisely condemns the "unsound policy of restricting agricultural production to the demands of domestic markets." But it goes on to promise "effective control of crop surpluses so that our farmers may have full benefit of the domestic market," while the candidate declares that we should "reduce the surpluses" and "make it unnecessary to depend on dumping them abroad in order to support domestic prices."

The two positions are obviously inconsistent. Which is to be the policy? Are the wheat and cotton and other farmers who produce large surpluses for export to have their markets restored by a reduction of tariffs? Or are they to be asked to curtail their operations so drastically as to bring their output within the limitations of domestic consumption? The latter is Republican policy. How is Democratic policy to differ from it?

The platform and the Governor rightly denounce the Hawley-Smoot tariff. But the platform declares for a "competitive tariff for revenue." How does a competitive tariff differ from a protective tariff? How can the competitive protectionist objective be reconciled with the revenue objectives?

More to the point, does this declaration mean that the party will repeal the Hawley-Smoot Act or that it will keep the present rates in force?

The Democrats have committed themselves against the cancellation of the war debts. Does this mean that they will also oppose debt reduction or an extension beyond December of the Hoover moratorium? These and other subjects demand further elucidation.

The party favors state unemployment insurance. Would it also stimulate the adoption of state insurance by exempting employer contributions to insurance funds from the Federal income tax, as Senator Wagner has proposed? Would it enact the Wagner bill for a system of public employment exchanges which was voted by President Hoover?

Gov. Roosevelt promises to "abolish useless offices" and "eliminate the perfunctory of government." What functions are to be eliminated? Does this pledge carry any threat to our hard-won regulatory agencies and social services; to the Federal Trade Commission, the Federal Power Commission, the Federal Radio Commission, the Public Health Service, the Women's Bureau or the Children's Bureau of the Department of Labor? We do not believe that it does, but those who fought for years for the establishment of these agencies will want to be assured that it does not.

Finally, the party's business policy must be elaborated. It favors "more rigid supervision of national banks." By what specific means and in what particulars? It promises "revision" of the "anti-trust laws" for the "better protection of labor and the small producer and distributor." Precisely what is the purpose of this pledge and how is it to be fulfilled?

These are some of the questions upon which the voters will ask for further light. If Gov. Roosevelt keeps his promise to "leave no doubt or ambiguity" on where he stands, the party's position on these questions will be made as clear and unmistakable as its position on prohibition, and the campaign will become, indeed, a campaign of public education.

PICTORIAL DIGNITY ON BEACON HILL.

Boston doesn't get one controversy settled before another begins. Its latest centers around the portrait of former Gov. Allen, painted for hanging in the State House. H. L. Wolff, the artist, delineated the subject with his hands in his pockets, and it is generally presumed that the Art Commission, which must pass on all official portraits, bases its opposition on the lack of dignity in such a pose. The objection raises the question as to what is the artful thing for a Governor to do with his hands when standing for his portrait? Should he fold them across his abdomen? Should he grasp his coat lapels, after the manner of the old-time patent medicine salesmen? Should he follow the style of the ham actor of trouping days who invariably kept his right hand slipped into the bosom of his double-breasted coat? Should he grasp his chin, allowing a forefinger to extend upward along the side of his face? In normal times it might be argued that the portrait's pose is a trifle informal, but with times as they are, Massachusetts surely will not turn it down for so slight a reason. If St. Louis can put up with Gen. Lyon, in his ridiculous little horse, in full public gaze, Boston can stand Gov. Allen with his hands in his pockets in the cloistered quiet of Beacon Hill.

AND BORAH FAILS THEM.

We do not know all that Ethel Hubler of Los Angeles said in presenting the name of Senator William Edgar Borah for President to the prohibition convention at Indianapolis, but we do know what she might very well have said, and submit that Indianapolis was the place and now the hour to say it. Since everybody knows it, it is no betrayal of confidence to say that Mr. Borah has, so to speak, been making love to the prohibitionists on many and startling occasions for long, devoted years.

We hesitate to imply that he has been practicing the arts of the gay deceiver, that there has been any insincerity in his avowals or forensic caresses, that he has, in a word, been philandering. Resolving every doubt in his favor, we are granting that his intentions have been honorable, but what, we should like to ask, have been his intentions? The question surely is in point at this critical hour when every loyal friend or, as in this case, more than friend, should be joyously ready to waive all other interests, attachments or considerations, and make whatever sacrifice the cause requires.

What is William Edgar's attitude? Sadly, solemnly and a bit coyly, he shakes his leonine head. It grieves him, perhaps, that he cannot accept the high honor, though we cannot be even sure of that, because he is as stingy with his words in this pivotal moment as a

moser with his gold. All that has been heard from him is that there is nothing doing. He may believe in his soul that the eighteenth amendment was brought down from Sinai; that the drys are the salt of the earth; that anyone who dissents from or doubts is a heathen; but as in another historic crisis, when the cross was begging for swords against the crescent, and

The cold Queen of England is looking in the glass, The shadow of the Valois is yawning at the mass, Brother Borah sits unmoved and immovable, and the prohibitionists find in him no Don John of Austria for their Lepanto.

That is what they ought to tell the Senator from Idaho.

## A CITY PLAN FOR ST. LOUIS.

A comprehensive city plan for St. Louis is suggested in the annual report of the City Plan Commission. The feasibility and desirability of the idea has been demonstrated by the commission in its formulation of the major street plan, being followed by the city, the zoning plan, now considered a most valuable guide to city development, and other plans concerning transit, recreation, river front improvement and so on.

Perhaps the best argument for a St. Louis plan lies in the object lessons other cities afford us. Washington is generally conceded to be the most beautiful city in the United States, and it is not a mere coincidence that it is the only city laid out from the beginning in accordance with a definite plan. The country owes a debt to Maj. Peter Charles L'Enfant, who was employed in 1791 at the suggestion of George Washington and Thomas Jefferson, to do the work. L'Enfant carefully surveyed the banks of the Potomac, then a marshy wilderness, and mapped streets and parks for a city one-third as large as Paris then was. His work was greeted with derision, since no one could believe Washington would ever be large enough to utilize a tenth of L'Enfant's grandiose ideas, but his imagination and vision were magnificently vindicated.

L'Enfant was a disciple of the French architects who, at the behest of Louis XIV, laid out in 1700 a plan for Paris, then a congested, ugly city. This plan was carried forward by Napoleon, and reached its fullest flowering under Baron Georges Haussmann, considered the greatest city planner of all time. Haussmann is largely responsible for the beauty of modern Paris, which attracts sight-seers from the entire world. Its great boulevards, huge squares, beautiful bridges and so on are an inspiring example of what city planning can do.

Chicago, once considered the ugly duckling among American cities, adopted a city plan in 1909 and is gradually perfecting it, with the result that parts of Chicago, particularly on the lake shore, have been transformed to vie in beauty with any city in the world. Water front parks and driveways, embellished with fountains, monumental buildings and sculptural effects, are making Chicago a mecca for visitors and new population.

Many other examples could be cited of the value of city planning, but the point need hardly be labored. It is a truism that no large city ever grew up planless without very unhappy results, not only aesthetically, but as regards convenience, property values and traffic congestion. A plan for St. Louis, embracing improvements already made and such future ones as the beautification of the river front, is urgently needed.

## EMBARRASSING MOMENT.

That is a mean political trick of the Republican wet bloc in the House of Representatives, who have petitioned Mr. Garner for immediate action on the beer bill. If Mr. Garner grants it, the bill is successful, the Republicans will claim credit for it. If he denies it, he will be accused of going counter to his own party's platform. The Speaker is on the spot.

## THE GAS COMPANY'S OPPORTUNITY.

In bringing natural gas to St. Louis homes, the Laclede Gas Light Co. has taken a step toward rendering a more satisfactory public service.

The immediate effect is to be slight reduction,

approximately 7 per cent, in the cost of gas for cooking and general use, and a substantial reduction of about 30 per cent for house heating.

Considerable cost was involved in making the gas system suitable for distribution of the mixture of natural and manufactured gas and in adjusting burners in homes for use of the richer gas. The gas company also stands to take a reduction in gross revenue unless the use of gas increases enough to offset the lower rates.

It is the hope of the company, of course, that use of gas will increase. The company has it within its power to encourage use of gas by the excellence of its service and by showing a sincere desire to reduce rates as much as possible. There is some doubt about the adequacy of the reduction already voluntarily given, and the City of St. Louis has a case pending before the State Public Service Commission for a full investigation of the value of the property used in serving gas and the fairness of rates. The company should show a willingness to adjust its rates to present conditions and not to rely upon the many devices by which some utilities in the past increased and maintained rates.

Plainly enough, the policy of lending public money to private financial institutions is one which can be justified only if within a reasonably short time there is a rise in prices which thaws out their frozen assets. On any other assumption, the policy means only that good money is being thrown after bad money, and that the depression is being prolonged by delaying the readjustment of debts.

The gas company has taken a commendable step in making better gas available at somewhat lower rates. Its opportunity for further service and cultivation of public good will be unlimited.

## THE DESERTERS STRAGGLE BACK.

One by one the implacables return. Al Smith has come out of his suks and will support the ticket. Jett Shouse in a reassuring message to the candidate addresses Gov. Roosevelt as "Dear Frank" and Newton D. Baker, though in full control of his enthusiasm, joins the chorus, in which is heard, too, the deep, friendly baying of Alfalfa Bill. Thus it is that the agonies of Chicago and the anguish and the anger all disappear like morning dew in the flooding sunshine. One voice alone is silent, that of John J. Raskob, and if that Wall Street wizard, looking back upon his wayfarings and adventures of the last four years, should stray into that Philadelphia Republican Club which knew him well in other days and quietly remark, "Well, boys, I'm home again, and let's all buckle down and re-elect Mr. Hoover"—yes, when Mr. Raskob wanders back to the old political home town the campaign may then proceed.

## AND BORAH FAILS THEM.

We do not know all that Ethel Hubler of Los Angeles said in presenting the name of Senator William Edgar Borah for President to the prohibition convention at Indianapolis, but we do know what she might very well have said, and submit that Indianapolis was the place and now the hour to say it. Since everybody knows it, it is no betrayal of confidence to say that Mr. Borah has, so to speak, been making love to the prohibitionists on many and startling occasions for long, devoted years.

We hesitate to imply that he has been practicing the arts of the gay deceiver, that there has been any insincerity in his avowals or forensic caresses, that he has, in a word, been philandering. Resolving every doubt in his favor, we are granting that his intentions have been honorable, but what, we should like to ask, have been his intentions? The question surely is in point at this critical hour when every loyal friend or, as in this case, more than friend, should be joyously ready to waive all other interests, attachments or considerations, and make whatever sacrifice the cause requires.

What is William Edgar's attitude? Sadly, solemnly and a bit coyly, he shakes his leonine head. It grieves him, perhaps, that he cannot accept the high honor, though we cannot be even sure of that, because he is as stingy with his words in this pivotal moment as a

Federal employee at Washington have increased 8286 in number in the last five years, it is reported. This is one Government measure for reducing unemployment that John J. Public does not endorse.

WE USED TO HAVE A RAIL-SPLITTER FOR PRESIDENT.

## The Hoover-Garner Controversy

By Walter Lippmann.

**M**R. HOOVER and Mr. Garner have plunged into a controversy on a problem which neither convention considered. Yet it deals with what is in many ways the most fundamental and serious problem before the country. Reduced to its simplest terms, the problem is this: With commodity prices as a whole fallen by 35 per cent since 1929 and the prices of farm products by 50 per cent, how is the great mass of debt contracted before 1929 to be supported?

There are involved the huge debts incurred by states and cities, the mortgage loans on farms and urban real estate, the bonds of railroads and of many industrial corporations, the bank loans of individuals and of business firms. A very considerable part of this debt is unsupportable at the present level of prices, and there is no greater question before the country than to determine how these debts are to be dealt with.

Mr. Hoover's policy throughout the depression has rested on the premise that sooner or later prices must and would rise sufficiently to restore the solvency of the debtors. Relying upon this faith, he committed himself to two main lines of action: one was to mobilize the Federal credit and to use it at strategic points to help financial institutions which were carrying frozen assets; the other was to stimulate as far as possible within the limits of the gold standard an expansion of credit to promote a rise in prices.

Plainly enough, the policy of lending public money to private financial institutions is one which can be justified only if within a reasonably short time there is a rise in prices which thaws out their frozen assets. On any other assumption, the policy means only that good money is being thrown after bad money, and that the depression is being prolonged by delaying the readjustment of debts.

The rise in prices on which Mr. Hoover staked his hopes, has not occurred. The pressure on the debtors has, therefore, grown more severe. At this point Mr. Garner has appeared on the scene with a demand that the Federal Government should lend its money not merely to creditor institutions, which have frozen assets on their hands, but directly and generally to large numbers of debtors. Mr. Garner's proposal is logical enough if Mr. Hoover's fundamental assumption is true. If prices can be made to rise fairly soon, if it is wise to avoid liquidation and bankruptcy until this rise of prices occurs, then a vast amount of human misery would be avoided if the Federal Government could carry all the debtors through the depression.

But as Mr. Hoover pointed out effectively in his statement, such an undertaking is altogether beyond the resources of the Government. The Garner bill with its paltry billion and a half would be a mere drop in the gigantic bucket of private debt. The attempt to administer this ridiculously inadequate fund in order to meet the expectations held out to millions of debtors by Mr. Garner's speech could result only in bitter disappointment, gross favoritism and the utmost confusion.

The real question raised by the controversy is not whether the Garner proposal is sound or not. It is obviously, patently and indisputably absurd. The real question is whether the Hoover policy, of which the Garner proposal is a redux ad absurdum, has not come to a point where it needs to be fundamentally reconsidered. The answer

## WOMAN WETS PLAN DRIVE FOR ROOSEVELT

Headed by Republican They Will Form Organizations in Every State.

By the Associated Press.  
NEW YORK, July 8.—After voting to support Franklin D. Roosevelt for President, the national executive committee of the Women's Organization for National Prohibition Reform made plans today to urge Roosevelt committees in every state.

Mrs. Charles H. Sabin, the Republican leader of the organization, said: "Citizens' Roosevelt-for-President committee will be started in every state. We are going to make a concentrated drive for members in the South."

The women thronged out their views in an all-day meeting yesterday at the home of Mrs. Edward S. Moore in Roslyn, Long Island. Of the 50 women present, 28 were described as Republicans.

Delegates, including proxies and two ballots, stood 51 to 19 on the two paragraphs of the resolution calling with the support of the presidential candidate. The committee, however, unanimously endorsed the Democratic repeal plank, urged support for congressional candidates committed to repeal and suggested that the members back congressional candidates of their own parties provided they favor repeal.

Prohibitionists Name Candidates, Plan Campaigns

INDIANAPOLIS, Ind., July 8.—Leaders of the Prohibition party announced plans today for a national campaign in behalf of its nominees for President and Vice-President—plans subject to change as the national dry organizations succeed in persuading Senator William E. Borah or another outstanding figure to become a candidate.

William D. Upshaw of Georgia, who served four terms in the National House of Representatives as a Democrat, was nominated for the presidency at the Prohibition party's convention which ended here yesterday. Frank S. Regan of Beckford, Ill., became the vice-presidential nominee.

Both agreed to withdraw if there should be an alignment of dry groups to form a large third party. Upshaw telegraphed Borah, "Our leaders devoutly hope that you will accept nomination of forthcoming nation-wide gathering of the moral forces of the country. If you do not accept, my nomination will be gladly laid at your feet."

The national prohibition board of strategy and the national conference of organizations supporting the eighteenth amendment will meet at Washington next week. Prohibition party leaders have expressed belief the Idaho Senator will enter the to feed undernourished children.

## CANDIDATE OF DRIES FOR PRESIDENT

WILLIAM D. UPSHAW, former Congressman and long a militant dry, is the nominee of the Prohibition party for President. He formerly represented the Fifth (Atlanta) District of Georgia in the House. As a boy he suffered a spinal injury that left him a cripple.

## BENEFIT COMMITTEE OFFICERS

Alderman Herman Waldman of the Twenty-eighth Ward has been appointed chairman, and William Yorger, director of the St. Louis Safety Council, vice-chairman of a Committee on Entertainment for the Tuberculosis Day benefit, Aug. 17, when the Cardinals will play Philadelphia.

The program preceding the game will include more athletic events and amateur games than formerly with less drills and performances of drums and bugle corps.

Proceeds of the benefit game, under the direction of the Tuberculosis and Health Society, will be used

to feed undernourished children.

## LADY MOUNTBATTEN WINS SUIT FOR LIBEL

Scurrilous Story About Wife  
King's Cousin and Colored  
Man Put in Record.

By the Associated Press.

LONDON, July 8.—Lady Louis Mountbatten won her libel action today against Odhams Press Ltd., publishers of "The People," Sunday newspaper. The defendants apologized and paid all costs. Lady Mountbatten was said to have refused to accept heavy damages.

During the brief proceedings, plaintiff's attorney told the court that although it was unusual he was forced to read into the record the libelous article of which the action was based. "I'll do that," he said, "so that its full enormity may be known and you may see in this case plainly stated so that the world may know that these foul rumors have been brought out of the region of hints into the light of publicity."

Then he read the following clipping from the newspaper:

"Famous hostess exiled. Society shaken by terrible scandal."

"I am able to reveal today the sequel to a scandal which has shaken society to its very depths. It concerns one of the leading hostesses in the country, a woman highly connected and immensely rich."

"Her associations with a colored man became so marked that they were the talk of the West End. Then one day the couple were caught in compromising circumstances."

"The sequel is that the society woman has been giving him hints to clear out of England for a couple of years to let the affair blow over, and the hint comes from a quarter which cannot be ignored."

The Lord Chief Justice impounded a copy of the publication containing the libel, pointing out that some libels are crimes.

Lord Louis sat with Lady Mountbatten during the proceedings. He is a second cousin of King George.

Notwithstanding the settlement, Lady Mountbatten and Lord Louis both took the witness stand with the consent of the Court and explicitly denied the allegations in the newspaper article.

"This article refers to a colored man," her attorney began. "Is there one syllable of truth in the allegation it makes?"

"There is not a single word of truth in it," replied Lady Mountbatten. "Never in the whole course of my life have I met the man referred to."

"Your friends," continued the attorney, "have named a colored man supposed to be referred to."

"Yes," said Lady Mountbatten, "but I never have even met the man. I've had nothing to do with him in any way. It's a preposterous story, the whole thing."

Mr. and Mrs. Charles McClure

### PLANNING THE MENU; RECIPES FOR WEEK

An Hour Limit for Preparation of Meals Suggested Today.

The week's meals in the menus published today have been planned with the weather strictly in mind. Not only is the weather reference to cooking, but in reference to the cook, for no meal prepared during the week should take more than an hour to cook. So come out of the kitchen and enjoy life!

On Saturday the consommé for Sunday dinner may be mixed and put in the ice box to chill, and the crabmeat salad for supper may be made and put into molds to chill and harden. Potato balls for Sunday dinner cut from firm potatoes, cooked for eight minutes, then drained and rolled in parsley or sprinkled with paprika, are more appetizing than large boiled potatoes, or even than mashed potatoes.

Use canned asparagus for Sunday's dinner salad and serve it with French dressing, to which has been added a little chopped pickle. Slip three or four stalks of asparagus through a ring of green pepper and arrange them on a platter.

Save the rest of the green pepper to use in the creamed chipped beef served Monday night. The slightly smoky flavor of this meat makes it appetizing for hot weather. Use one-half pound of the beef for six servings. Pull the slices apart in small pieces, cover with boiling water, let stand for five minutes, then drain. Melt four tablespoons shortening, add about one-third cup chopped green pepper and stir until the pepper begins to brown. Add five tablespoons flour and when mixed add 2 1/2 cups milk, a teaspoon grated onion, a little white pepper. Stir until thickened and creamy, add the beef and two tablespoons parsley and serve on crisp slices of toast. Make corn fritters for Tuesday from corn cooked the night before. Drain the corn from the ears, add one-third cup milk and one beaten egg. Sift one cup flour with one-half teaspoon salt and one teaspoon baking powder and stir into corn mixture. Fry in hot fat in a hairy frying pan. Jellied Crab Salad.

Soak two tablespoons plain gelatin in one-fourth cup cold water for five minutes, add one cup boiling water and stir until dissolved. Add two cups canned tomato juice, one teaspoon salt, one tablespoon vinegar, a few grains cayenne pepper, and one teaspoon sugar. Cool until beginning to thicken, stir in two cups flaked crabmeat, one cup diced celery, one-fourth cup shredded green pepper and six sliced olives. Pour into small molds and set aside to chill and stiffen. Turn out and serve on lettuce with thin mayonnaise. Serves six.

Homemade Sweet Potatoes.

Boil six medium-sized sweet potatoes without peeling them. When tender, drain, cool slightly and peel. While potatoes are boiling mix one-half cup brown sugar with one-half cup water and the peel of one-fourth of a lemon. Boil this for five minutes. Put potatoes in a small, deep, buttered baking dish, pour syrup over them and add two tablespoons butter. Sprinkle lightly with salt and bake in a moderate oven for 30 to 40 minutes. When cooked, the potatoes will have absorbed syrup and be transparent around edges.

Blackberry Tapioca.

Pick over and wash one quart of ripe blackberries. Put in a saucepan with two cups water and boil gently for 10 minutes. Add one cup sugar, cook five minutes longer, then skim off berries and place in a serving dish. Stir one-fourth cup granulated tapioca into boiling fruit juice and stir until it thickens, then reduce heat and cook for 10 minutes, or until tapioca is transparent. Pour over berries, chill and serve with cream. Serves six.

Baked Meat Loaf Ring.

Have one pound lean, fat, chopped fine with one-half pound lean meat and one-half pound lean pork. Mix with one and one-half teaspoons salt, one-half cup fine dry breadcrumbs, one cup scalloped milk or hot water, the grated rind of one-half lemon, one-half teaspoon poultry seasoning, two tablespoons minced parsley, and one-fourth teaspoon pepper. Stir in one beaten egg and mix thoroughly. Pack into a greased ring mold and bake in a moderate oven for 50 minutes. Turn out and fill center of ring with creamed carrots and peas. If carrots are young and very small leave them whole; use one dozen tiny carrots and two pounds fresh peas.

Apricot Ice Cream.

Scald and peel fresh apricots, then mash the pulp to make two cupsful. Or if more convenient use two cups pulp from canned or dried dried apricots. The fresh apricots have delicate flavor and are in season now, so we recommend using them if possible. Mix fresh pulp with one cup sugar, cover and let stand while canning the following: Scald two cups milk, stir in two tablespoons cornstarch mixed with one-fourth cup sugar and continue stirring until thickened and very smooth. Remove from fire and add two cups thin cream or undiluted evaporated milk, one-fourth teaspoon almond extract and one teaspoon vanilla extract. When cold freeze to a mush in freezing tray of a mechanical refrigerator, or in an ice cream freezer. When mushy add fruit pulp, stir to mix, and finish freezing. If frozen in a refrigerator, stir

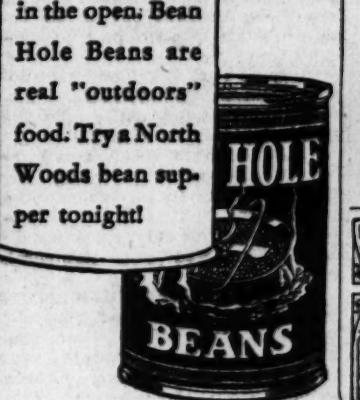

### CROQUETTES ARE GOOD WITH THIS CELERY SAVORY SAUCE

One and one-half cups stock, one-fourth cup chopped celery, three tablespoons chopped onion, one tablespoon chopped olives, three tablespoons chopped pimiento, one tablespoon prepared mustard, one-half teaspoon Worcester-shire sauce, salt, pepper, two tablespoons butter or margarine, two tablespoons flour, one tablespoon lemon juice.

To the stock, add the celery, onion, olives, pimiento and seasonings, using salt and pepper to taste. Cook 10 minutes, then thicken with the butter and flour rubbed together and add the lemon juice.

### BETTER THAN BEANS "HOME BAKED"

Appetites grow in the open. Bean Hole Beans are real "outdoors" food. Try a North Woods bean supper tonight!

COOL!

## GARDEN

Cracker Cookery  
Crackers have come into a new place on the food list, and have proved their worth in the making of cakes, desserts and pies. Popular dishes in the new cracker cookery.

"It certainly does feel much softer"

## CRACKER COOKERY

Wafers, etc., make a delicious crust for a number of pie fillings; graham cracker cake, or graham date pudding, various icebox cakes and puddings, and cheese cake made with a zwieback crust are other popular dishes in the new cracker cookery.

CREAM FILLINGS  
Cream two tablespoons butter, add gradually one cup confectioners sugar and beat in two tablespoons evaporated milk or thick cream and season as desired with coffee extract, black walnut extract, almond, vanilla, etc., to make various flavored butter cream fillings. For fresh fruit flavors, omit the cream and add two tablespoons fresh fruit pulp. Use to fill cup cakes, or for layer or sponge cakes.

Prune Salad.  
Steam 12 large prunes until soft, cool, remove stones and cut the prunes into small pieces. Measure them and add equal portions of orange pulp and diced canned pineapple. Chill well, then heap on crisp lettuce. Serve with French dressing.

Summer Breakfasts  
NEED SPECIAL CARE  
Starting the Day With Appetizing Food is Important Now.

Summer breakfasts often seem a real problem, not only to the housekeeper, but to many a business man and woman depending on restaurants for their meal. After a hot night, the idea of breakfast is often far from pleasant. Yet, by a careful selection of foods, it can really be a most pleasant and appetizing meal.

It is a mistake to start the day without breakfast, as the system requires nourishing food in hot weather as well as in cold, though in smaller quantities, perhaps, and of a different kind. Cooling but nourishing foods are what we need, and to obtain the most nourishment from them they must be pleasing both in appearance and taste.

Breakfast should be a light meal, and the amount and kind of food eaten depend on the work to be done during the morning. The continental breakfast of coffee and rolls supplemented by fruit will appeal to and satisfy the sedentary worker. A more active person will require a more substantial meal; cereal and a light protein food may be added as desired. Protein foods should be used sparingly, as they are really high in calories, and they should be accompanied by a crisp green such as watercress, radishes or cucumbers, or an acid fruit or tomatoes.

Cereals Ideal Food.

Cereals are ideal summer food for all but the very fleshy. They may be served in a number of ways, and on a summer morning the uncooked or ready-to-serve varieties probably have a greater popularity than the cooked ones. Farina or any fine cereal may be cooked with milk, poured into small molds and chilled before serving. Served with fresh, sugared fruit, and accompanied by toasted rolls and coffee, it forms a breakfast that is at once delicious, attractive and satisfying. Sometimes it may be advisable to omit the cereal and substitute an omelet, broiled mushrooms, bacon and broiled tomatoes, or some other favorite dish. The point to keep in mind is that finicky appetites demand variety; the same food served several days in succession are actually distasteful in the end, even though it was received with delight on its first appearance.

Popovers and Toast.  
Popovers, thin, crisp toast, crusty rolls or muffins are the best forms of hot breads for hot days. Soft breads are likely to cause fermentation and digestive upsets.

Fruits of all kinds should be used freely, for they stimulate the appetite and are refreshing and cooling. Their mineral content and fruit sugars make them valuable regulators in the diet.

Menus for Summer Breakfast.

Chilled farina with raspberries or blackberries and cream. Scrambled eggs with watercress garnish.

Toasted rolls—coffee

Read-to-serve wheat cereal with sliced peaches

Creamed mushrooms on toast—coffee

Watermelon cubes, or half of cantaloupe

Broiled bacon and tomatoes—toast—coffee

Chilled honey dew melon. Fried pan fish with watercress garnish

Popovers—coffee

Chilled fruit juice—orange, grape or pineapple

Hot-wheat cereal cooked in milk

Crisp bacon with sliced tomatoes as garnish

Melba toast—raspberry jelly

Substantial Salad May Be Main Luncheon Dish

Macaroni and Celery.

One-half package (four ounces) elbow macaroni, two hard-cooked eggs, one-quarter cup chopped pimiento, one-half cup chopped ripe olives, one cup chopped celery, mayonnaise.

Cook macaroni until tender, drain and chill. Add chopped hard-cooked eggs, pimiento, ripe olives and celery. Mix with mayonnaise and serve on lettuce.

Shrimp and Pineapple Salad.

Cut two cups pineapple into medium-sized pieces and cut two cups shrimps into quarters. Mix well with mayonnaise and serve on lettuce leaves, topped with mayonnaise and paprika. Apple and orange, diced, are also good in combination with shrimp.

Vegetable Salad in Rings.

One quart tomato sauce, two cups shredded cabbage, one cup diced celery, two tablespoons chopped parsley, one-half cup coarsely chopped ripe olives, French dressing, mayonnaise.

Make a well-seasoned tomato aspic with gelatin and pour it into a ring mold. When firm, unmold and fill the center with the cabbage, celery, olives and parsley, mixed together and marinated with a little French dressing. Garnish with lettuce and serve with mayonnaise. Serves eight.

Poached Eggs.

Have salted water boiling in a frying pan. Break eggs one at a time into a saucer and slip carefully into the water. Keep the water just under the boiling point and cook until the white is set. If the water does not cover the yolk dip water gently over it to coagulate the film of white. Remove the eggs with a skimmer to slices of buttered toast.

## ST. LOUIS POST-DISPATCH

## NUTS GIVE THESE CROQUETTES A DELIGHTFUL FLAVOR

salt mixed together and cook until thick, stirring constantly. Continue cooking, stirring occasionally, for 15 minutes. Add egg, slightly beaten, and cook a few minutes longer. Cool and add flavoring. Enough for eight-inch two-layer cake.

Chocolate Filling.  
One cup milk, one-quarter cup sugar, two and one-half tablespoons flour, one-quarter teaspoon salt, one egg, one teaspoon vanilla.

Scald milk, add sugar, flour and

Chocolate Filling.  
Add to cream filling one square of chocolate, melted, and two tablespoons sugar.

Cocoanut Filling.  
Add to cream filling one-third

cocoanut.

Cook onion in fat until golden brown, add to it one and one-half

cups of stock in which veal was

cooked and bring to boiling point.

Heat into the egg until the cornstarch mixed smooth with the remaining half cup of stock. Four heated stock over egg mixture and cook until very stiff, stirring constantly. Add salt, pepper and paprika and remove from the stove.

Stir in veal, which has been

mixed with nuts and lemon juice.

Let mixture become very cold. Mold into croquettes. Roll in fine crumbs then in egg beaten with one table-

spoon of water and finally in

crumbs again. Fry in deep fat.

ICE CREAM NOVELTY  
IN TWO NEW RECIPES

Banana Sandwich With Pineapple Sauce and Pistachio With Peaches.

"Please give me something different for ice cream and tell me how to get the best results from a freezer," is a late request.

For a two or three quart freezer allow 10 to 15 pounds of ice, finely cracked and mixed with rock salt in the proportion of one measure of salt to eight measures of cracked ice. This is the proportion that has been found to give the best results.

Before filling with ice cream mixture, add it, and seal paddle and lid. Put paddle in place, add cover, place in bucket and be sure it works smoothly before packing with ice and salt. Fill freezer can not more than three-fourths full, cover, and pack mixed ice and salt around can, turn crank slowly at first, then more rapidly as the mixture thickens, until it is stiff.

When frozen stiff, remove paddle or dasher, pack down ice cream and serve at once or repack and let stand until needed. Place a piece of waxed paper over the ice cream after the dasher is removed, then put cover back in place and stop hole with a close fitting cork. If ice cream has to stand, pour out water, repack freezer with ice and salt, cover with a thick layer of newspaper and let stand.

Pistachio Ice Cream.

Pistachio ice cream served with halves of fresh peach is a glorious dessert for a hot day. Scald one cup milk, add one-half cup sugar and stir until the sugar dissolves.

Cool, stir in two cups thin cream or of undiluted evaporated milk, one teaspoon vanilla extract, a few drops of green coloring and one cup finely chopped pistachio nuts. When cold, pour into the freezer and freeze until stiff.

Serve a ball of the ice cream between two halves of a ripe peach.

Doesn't that sound cool and delicious?

Banana Ice Cream Sandwich.

Peel six large ripe bananas, rub them through a coarse strainer into three cups rich milk, or two cups evaporated milk and one cup milk.

Stir to mix, then freeze and let stand an hour to ripen. Serve a thick layer of ice cream between two layers of sponge cake and your pinafore will be over it.

Pineapple Ice Cream.

Two cups canned crushed pine-

apple mixed with one-quarter cup sugar and one teaspoon cornstarch and boiled for five minutes. Cool before serving. Fresh, chopped pineapples may be used if desired, mix two cups with one-half cup sugar and one-half cup water and boil gently for eight minutes. Stir in one teaspoon cornstarch mixed with a little cold water, let boil up once and serve cold.

HAM AND COFFEE FLAVORS  
ARE NEW FOR MUFFINS

Ham Muffins.

Four tablespoons shortening, one cup chopped cooked ham, one egg, one cup graham flour, one cup white flour, three teaspoons baking powder, one cup milk.

Cream shortening and add ham.

Add egg well beaten and then the dry ingredients mixed and sifted, alternately with the milk. Mix well and put into greased muffin pans. Bake in a hot oven 30 minutes. Temperature, 400 degrees. Twelve muffins.

Mocha Muffins.

Two tablespoons sugar, two tablespoons melted shortening, one egg, one-quarter cup rich milk, one-half cup strong coffee, one cup flour, three teaspoons baking powder, one teaspoon salt, three-quarters rolled oats (uncooked).

Mix sugar and shortening, add the beaten egg, milk and coffee.

Add flour, with which the baking powder and salt have been sifted, and the rolled oats. Beat well.

Bake in greased muffin pans in a moderate oven for 25 minutes.

Temperature 350 degrees. Twelve muffins.

FRESH TOMATOES ARE GOOD  
STEWED, STUFFED OR FRIED  
Fried.

Choose tomatoes that are a little underripe, green ones may be used.

Cut in crosswise slices about one-third inch thick. Sprinkle with salt and pepper and dredge with flour. Sauté in a little butter or other cooking fat in a frying pan, browning on both sides.

Stewed.

One quart tomatoes, one small onion, one tablespoon sugar, salt, pepper, one tablespoon butter or margarine.

Peel and cut in pieces before

measuring, then the cook until soft

without added water. Add finely

chopped onion, sugar, salt and

pepper to taste. Simmer for 10

minutes. Add butter just before

serving.

Stuffed.

One medium sized tomatoes, one

cup soft bread crumbs, one-half

cup chopped celery, one teaspoon

scraped onion, salt, pepper,

chopped parsley, one-quarter cup

buttered crumbs.

Remove a thin slice from the

stem end of each tomato and scoop

out the pulp. Mix bread crumbs,

celery and seasonings with enough

of the pulp to moisten. Fill the

tomatoes with the mixture and bake

in moderate oven until tender.

BROILED BRAINS.

Cut boiled brains in halves or

slices, brush with melted fat, place

on a greased broiler and cook about

five minutes, turning to brown on

both sides.

**"LOOKING BACK TO 1932"**

“I remember back in '32”

*“I remember back in 1932 when there were so many bargains—values that now seem almost unbelievable—and how often I have congratulated myself on the fact that we were sensible enough to take advantage of 1932's low prices.*

*“You probably remember that the 1932 low prices on wearing apparel for men, women and children enabled us to buy the nicest things away under present costs. Those were the days when our dollars did double duty. Why, we laid in a supply of shoes to last us for months to come.*

*“You have both marveled at our electrical equipment—our refrigerator, washing machine, vacuum cleaner, the radio and the numerous other comfort-giving, labor-saving electrical things. You'd be astonished to know what moderate prices prevailed on these things back in 1932.*

*“And when you are admiring our furniture, please don't think we could afford it at present prices. Just remember that we bought it in 1932.*

*“The fur coat? Oh, yes, it is handsome, and the furrier told me yesterday that I couldn't buy the pelts now for twice what I paid for the coat.*

*“Our silver, the clock and the prized jewelry were all bought back in 1932 when jewelry stores were making prices that now seem unbelievable.*

*“Certainly, those wonderful 1932 values gave many of us buying opportunities we should like to see again—but probably never will. If we could live them over again I would buy many things I should have bought.”*

# Dancing Feet

by Rob Eden

## CHAPTER THIRTY-THREE.

HE restaurant was small and smoky, the coffee vile, but Julie was happy. Donna was sitting across from her at the table, his chin resting in his hands, his eyes on her face. It didn't matter that it was long past midnight and she was tired from dancing at the Golden Slipper, and that she had to get up early in the morning to stand on her feet all day long at Newman's. She was with Donna. He had come to Abe's place after his art class to get her to have some supper with him. On the table near his elbow was his portfolio.

Her fingers touched the coin under her dress. Perhaps it had brought her luck. Certainly it had brought her Donna, and Peyton had only given it to her last night. From now from her warm body, would want to prove to him that he was wrong. Julie did and started out to earn her living for three months. Two months have passed and she works at Newman's Ten Cent Store and at night dances at the Golden Slipper. She met Donna Farrell, a young artist, and fell in love with him. Donna is engaged to Angela Wells, a wealthy society girl. Donna is painting a portrait of Julie. Bob McRae, her roommate, and Peyton Wells, Angela's brother, have warned Julie that she will be hurt if she doesn't forget Donna. Julie doesn't feel that way and believes that Donna really loves her.

"What do things have to be as are Julie? Why do I have to meet you and then let you go?"

"You don't have to let me go, don't you?"

The first time they had had a chance to talk alone for weeks, and was spoiling it again, bringing Angela in. That was what he meant.

"I wonder, too, at times. Like I am now. Wanting to chuck everything, and then not wanting to."

"Do you want to break with Angela?"

"When I'm with you I do, and when I'm with her, I don't want to. Do I make up my mind what I want? The funny thing is that I want you both. I want you."

"Supposing you'd never met Angela?"

"Then I wouldn't hesitate, of course. That's the mean part of it. I wish sometimes I'd never met her—and then I'd be sure, of wanting you."

She could tell him, if she wanted, that she could give him more than he could ever, but she didn't wait. Max had said, Test him. In the end he'd choose her—but he had to be sure he loved him and he loved her. He must love her more than he did Angela. Must. She saw it in his eyes now. Truthful eyes he had.

"Promise me one thing, Donna."

"What?"

"Promise me that you'll give me the portrait when it's finished."

"Of course, if you want it, it's yours to do with as you choose. It's going to be good, too. The best thing I've ever done. Lawson, one of my art teachers, dropped by last night to see it, and he raved about it. Especially liked the way I'd done your hair. He wants me to exhibit it, so I'm going to. I'm hurrying to finish it now."

"Then it's mine."

"Yours."

His arms holding hers tightly as they left the restaurant, and stepped into the cool night air. Her heart racing wildly because she was with him, and because she knew he loved her.

"Then," he said, "I'll bring you to the Riviera. She and I are living and loving."

"We'll be poor, in the first place."

"I wish sometimes I'd never met you—

"I'm sorry for wishing it. Sorry that I am wishing it never met you."

"I wouldn't have said you for the world. Julie."

"All I have to do is break with Angela."

"Encouraging him, he'd say he would. Hoping he's terribly."

"Easy to say, harder to do. He'd be miserable together, Julie, we married. Don't you see?"

"No—" Donna at Bretwood, on the Riviera. She and Max were holding hands, and were married. Don't you see?"

"I'm sorry for wishing it. Sorry that I am wishing it never met you."

"I wouldn't have said you for the world. Julie."

"All I have to do is break with Angela."

"Encouraging him, he'd say he would. Hoping he's terribly."

"Easy to say, harder to do. He'd be miserable together, Julie, we married. Don't you see?"
